

BULK COIN DISPENSER AND RECYCLER

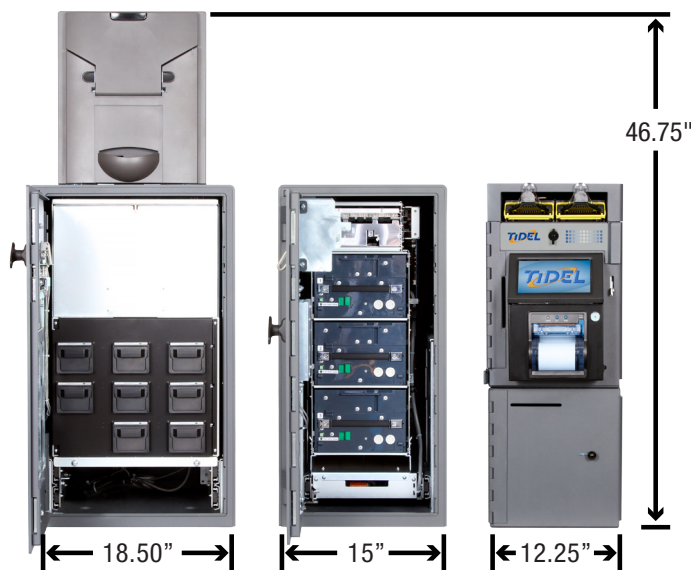

BULK COIN DISPENSER AND RECYCLER

The Tidel Bulk Coin Dispenser and Recycler is designed for organizations that handle high volumes of cash transactions as part of their day-to-day operation.

Optimal for retail organizations with multiple till drawers at start and end of shift, the Bulk Coin Dispenser and Recycler enables cashiers to begin their shift by dispensing coins and notes authorized for their own till drawer. At end-of-shift, cashiers can drop their coins and notes back into the system for final 'bank out.' The integrated coin recycler automatically counts bulk coins deposited into the system tray, which automatically counts and places each coin into its respective coin hopper.

By automating cash management functions, the Bulk Coin Dispenser and Recycler minimizes counting errors and shrink, allowing retail organizations to focus on their business, and not counting cash.

SPECIFICATIONS:

Bulk Coin Dispenser and Recycler with High Capacity Note Dispenser and Series 4e

Weight: 849 lbs. (386 kg) Bulk Coin Dispenser and Recycler, 3 Cassette High Capacity Note Dispenser, Series 4e (shown above)

Weight: 959 lbs. (435 kg) Bulk Coin Dispenser and Recycler, 4 Cassette High Capacity Note Dispenser, Series 4e (on cover)
