

# Forget me Not

h a n d m a d e m e m o r i a l j e w e l l e r y

*We offer to fill and seal your capsule memorial pendants but appreciate you may also want to do this yourself. We hope the below advice is useful*

## How to Fill Your Own Forget Me Not Capsule Pendant

### Step 1

Prepare a suitable area for filling the pendant. We recommend placing some paper onto a tabletop to catch any spilt ash or sacred soil. Remove the top loop and set aside somewhere safe.

### Step 2

Use a small funnel or make a paper funnel to help pour the ashes into the capsule pendant. See the bottom of this page for some suitable funnel templates which can cut out, rolled and joined with some tape

### Step 3

Once you have filled the ashes using the funnel, check there is no ash/soil obstructing the thread. Then gently screw the threaded top back on to the pendant body all the way down until it is seated correctly

### Step 4

Once you are happy the loop is aligned square with the pendant, unscrew it again and apply a very small dot of glue to the thread (not too much). Screw the top all the way down until it is fully seated, and the loop is aligned square - as per the pictures to the right. **Note: Alignment is very important for the pendant to lay flat on the chain**

### Step 5

Leave the pendant to set for the recommended time (dependent on the glue used). When the glue sets it will seal the thread against moisture and ensure the loop does not come undone.
