

The Official Training Facility of BOSS Medical

Certified to teach with the InnoPen Microneedling Patented Device

Learn the latest technique of Microneedling with the InnoPen, a revolutionary patented medical grade device with a built in double protective tip system that surpasses all others. This course is comprised in the teachings of the science behind Microneedling, theory and practical application, client consultation, application of topical anesthetics and after care. Students will be trained on the only CSA/FDA/Health Canada approved 13 point InnoPen device which consists of surgical stainless steel needles that safely retracts immediately after usage to avoid micro tearing of the skin, epidermal scratching, and cross contamination.

Microneedling Clinical Certified Course

Prerequisite: Diploma Certified Esthetician, Diploma Medical/Clinical Esthetician, RN, NP, LPN, RMT, Physician, Dental Assistant

Tuition: \$1500 (tuition includes manual and Student Kit valued at \$274)
