## Precautions

- Keep out of reach of children.
- Do not use if product is damaged.
- Do not use product for other uses other than intended.
- Do not disassemble or reassemble the product.

## Operating Instructions

1. Fully charge the battery prior to first use. The indicator light will be red when charging and green when completed. Charging time is approximately 1.5 hrs.
2. To use, switch on using battery power, or plug into power socket.
3. Adjust brightness by stretching or compressing the light. Stretch upward to increase the brightness of the light, and compress downward to reduce the brightness of the light.
4. For white light, pull up to the first section. To change to yellow light, press the contact switch and pull up. Repeat to change light color back to white.

[Adjust the height according to the demand of lighting]
