

# ErgoDox EZ Default Layout - V1.2

[http://configure.ergodox-ez.com/keyboard\\_layouts/kagx1](http://configure.ergodox-ez.com/keyboard_layouts/kagx1)

 A regular key

 A modifier key (Shift, for example)

 A dual-function key. Sends Z when you tap it, and acts as Ctrl when you press and hold it.

 LED control, for the ErgoDox EZ Shine.
