

MATERIAL SAFETY DATA SHEET

SECTION 1 — CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Identifier Cuticle Oil - Fragranced	Code **-CO-06, **-CO-15	
Product Use For Professional Use Only		
Manufacturer's / Suppliers Name Naio Nails UK Ltd.		
Street Address 5 Portrack Court, Stockton-On-Tees, TS18 2XB, United Kingdom.	Emergency Contact Details Infotrac +1 (800) 535-5053 Outside USA +1 (352) 353-3500	
Date MSDS Prepared 01-December-2016	MSDS Prepared By Daniel Anderton	Phone Number 0333 1211109

SECTION 2 — HAZARDS IDENTIFICATION

Classification of the substance or mixture

Product Definition	Mixture
---------------------------	---------

This product is classified as **hazardous** according to regulation (EC) 1272/2008

- See Section 16 for the full text of the R phrases or H statements declared above.
- See Section 11 for more detailed information on health effects and symptoms.

Hazard Statements	Slightly hazardous in case of eye contact (irritant), Slightly hazardous in case of ingestion.
--------------------------	---

Precautionary statements

General	Not Applicable
Prevention	Wear protective gloves. Wear eye or face protection. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use explosion-proof electrical, ventilating, lighting and all Material handling equipment. Avoid release to the environment.
Response	- IF INHALED: Remove person to fresh air and keep comfortable for breathing - IF ON SKIN / HAIR: Take off immediately all contaminated clothing. Rinse Skin with water or shower
Storage	Keep cool
Disposal	Dispose of contents and container in accordance with all local, regional, national and international regulations.

SECTION 3 — COMPOSITION/INFORMATION ON INGREDIENTS

Product / Ingredient Name	INCI Name	Identifiers	%	Type
Mineral Oil	Mineral Oil	CAS: 8042-47-5	95-100	[1]
The following may or may not be included in the composition depending on required scent				
Sweet Almond Oil	Prunus Amygdalus dulcis (Sweet Almond) Oil	CAS: 8007-69-0	1-5	NON HAZARDOUS [0]
Coconut Oil	Cocos Nucifera (Coconut) Oil	CAS: 8002-78-6	1-5	
Pineapple Oil	Anaas Sativos (Pineapple) Fruit Juice	CAS: 68917-56-0	1-5	
Tea Tree Oil	Melaleuca Alternifolia (Tea Tree) Leaf Oil	CAS: 68647-73-4	1-5	
Vanilla Oil	Vanilla Planifolia Fruit Extract	CAS: 84650-63-5	1-5	
Lemon Oil	Lemon Oil (Citrus Limon)	CAS: 8008-56-8	1-5	
Passion fruit	Passion Fruit Extract	CAS: No Data Available	1-5	
Peach Oil	Peach Oil Extract	CAS: No Data Available:	1-5	
Parfum	Parfum	CAS: No Data Available	1-5	

SECTION 4 — FIRST AID MEASURES

4.1 - Description of first aid measures

Eye Contact	Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation occurs.
Inhalation	If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention if symptoms appear.
Skin Contact	Wash with soap and water. Get medical attention if irritation develops.
Ingestion	Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention if symptoms appear.
Protection of first-aiders	No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

4.2 - Most important symptoms and effects, both acute and delayed

Potential acute health effects

Eye contact	Causes eye irritation.
Inhalation	Non-hazardous in case of inhalation.
Skin contact	Non irritant for skin contact

Ingestion	Slightly hazardous for ingestion
-----------	----------------------------------

Over-exposure signs / symptoms

Eye contact	Adverse symptoms may include the following: Pain or irritation
Inhalation	Adverse symptoms may include the following: No specific data.
Skin contact	Adverse symptoms may include the following: No specific data
Ingestion	Adverse symptoms may include the following: No specific data

4.3 - Indication of any immediate medical attention and special treatment needed

Notes to physician	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	No specific treatment

SECTION 5 — FIRE FIGHTING MEASURES

5.1 - Extinguishing media

Extinguishing media	Use dry chemical, CO ₂ , Water Spray (Fog) or Foam. DO NOT USE Water jet
----------------------------	--

5.2 - Special hazards arising from the substance or mixture

Hazards from the substance or mixture	No data available
Hazardous thermal decomposition products	No data available

5.3 - Advice for firefighters

Special protective actions for fire-fighters	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
Special protective equipment for firefighters	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

SECTION 6 — ACCIDENTAL RELEASE MEASURES

6.1 - Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapour or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate.
------------------------------------	---

Put on appropriate personal protective equipment.

For emergency responders

If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel"

6.2 - Environmental precautions

Environmental precautions

Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6.3 - Methods and material for containment and cleaning up

Small Spill

Absorb with an inert material and put the spilled material in an appropriate waste disposal.

Large Spill

Absorb with an inert material and put the spilled material in an appropriate waste disposal. Finish cleaning by spreading water on the contaminated surface and allow to evacuate through the sanitary system

See Section 1 for emergency contact information,

See Section 8 for information on appropriate personal protective equipment.

See Section 13 for additional waste treatment information.

SECTION 7 — HANDLING AND STORAGE

7.1 - Precautions for safe handling

Protective measures

Keep away from heat. Keep away from sources of ignition. Ground all equipment containing material. Do not breathe gas/fumes/ vapor/spray. Keep away from incompatibles such as oxidizing agents.

Advice on general occupational hygiene

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 - Conditions for safe storage, including and incompatibilities

Keep container tightly closed. Keep container in a cool, well-ventilated area. Do not store above 24°C (75.2°F).

SECTION 8 — EXPOSURE CONTROL / PERSONAL PROTECTION

8.1 - Control parameters

Occupational exposure limits

No exposure limits known

Recommended Monitoring procedures

If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

8.2 - Exposure controls

Appropriate engineering controls	Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value. Ensure that eyewash stations and safety showers are proximal to the workstation location.
---	---

Individual protection measures

Hygiene measures	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Personal Protection	Splash goggles. Lab coat. Vapor respirator. Be sure to use an approved/certified respirator or equivalent. Gloves
Personal Protection in case of a Large spill	Splash goggles. Full suit. Vapor respirator. Boots. Gloves. A self contained breathing apparatus should be used to avoid inhalation of the product. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.

SECTION 9 — PHYSICAL AND CHEMICAL PROPERTIES

Physical State Liquid	Odour and Appearance Odorless. .	Colour Colourless
Specific Gravity 0.835	Vapour Density (air = 1) Unknown	Flash Point (° C) Closed cup: 168.35 °C
Evaporation Rate Low (Unknown specific)	Boiling Point (° C) 310°C	Freezing Point (° C) Unknown
pH Unknown	Explosive Limits No Data Available	[Solubility in Water] No Data Available
May be flammable at high temperatures above 168 °C		

SECTION 10 — STABILITY AND REACTIVITY

Reactivity	Reactive with oxidizing agents
Chemical stability	The product is stable.
Hazardous reactions	Under normal conditions of storage and use, hazardous reactions will not occur
Conditions to avoid	Heat, Incompatible materials
Incompatible materials	Reactive with oxidizing agents
Hazardous decomposition	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11 — TOXICOLOGICAL INFORMATION

Effects of acute exposure	Slightly hazardous in case of eye contact (irritant), of ingestion. Non-irritant for skin. Non-hazardous in case of inhalation
Effects of chronic exposure	General: No known significant effects or critical hazards. Carcinogenicity : No known significant effects or critical hazards. Mutagenicity : No known significant effects or critical hazards. Teratogenicity : No known significant effects or critical hazards. Developmental effects : No known significant effects or critical hazards. Fertility effects : No known significant effects or critical hazards.

SECTION 12 — ECOLOGICAL INFORMATION

Product/ingredient name	Result	Species	Exposure
Mineral Oil	No data available	No data available	N/DA

SECTION 13 — DISPOSAL CONSIDERATIONS

Waste treatment methods

Methods of disposal	Waste must be disposed of in accordance with federal, state and local environmental control regulations
Hazardous waste	The classification of the product may meet the criteria for a hazardous waste

Packaging

Methods of disposal	The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.
Special precautions	This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out.

SECTION 14 — TRANSPORT INFORMATION

	ADR/RID	ADN	IMDG	IATA
14.1 UN number	N/A	N/A	N/A	N/A
14.2 UN proper shipping name	N/A	N/A	N/A	N/A
14.3 Transport hazard class(es)	N/A	N/A	N/A	N/A
14.4 Packing group	N/A	N/A	N/A	N/A
14.5 Environmental hazards	No	No	No	No
14.6 Special precautions for user	Transport within user's premises; Always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.			

SECTION 15 - REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

EU Regulation (EC) No. 1907/2006 (REACH)

Annex XIV -	List of substances subject to authorisation	None of the components are listed
	Substances of very high concern	None of the components are listed
Annex XVII	Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles	Not applicable
Other EU regulations	Europe inventory	All components are not listed or exempted.
	Integrated pollution prevention and control list (IPPC) - Air	Not Listed
Seveso Directive -	This product is controlled under the Seveso Directive.	
Danger Criteria -	None Listed	

SECTION 16 — OTHER INFORMATION

Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Classification	Justification
Eye Irrit. 1, H319	Calculation method

Full text of classifications [CLP/GHS] [H Statements]	Eye Irritation 1 - H319 L : SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 1
