

WEIGHT LOSS

Lose Weight Naturally

Cellalife Weight Loss formula helps manage weight loss with two powerful, natural ingredients, **Cellankton™ Marine Phytoplankton** and Matcha Green Tea. Cellankton™ Marine Phytoplankton helps the

body to metabolize fats and proteins. As a source of vitamins and minerals, it provides nutritional support for the maintenance of good health, mental, emotional and physical well-being.

The Science of Matcha Green Tea

Matcha green tea has a highly powerful concentration of antioxidants EGCG and catechins which makes it 137 times greater than regular green tea. Studies show that the antioxidant EGCG suppresses the appetite and aids in the process of turning carbohydrates in to energy instead of fat. Green tea is naturally low in calories and nutritionally high in potassium, iron and magnesium. It also helps to break up cholesterol and is known for its fat burning qualities.

FLAWLESS SKIN

Improve Your Skin Tone

Eating right and exercising go a long way to healthy skin but sometimes aren't enough. Cellalife Flawless Skin helps smooth the skins surface and even out skin tone. It's carefully chosen ingredients

including **Cellankton™ Marine Phytoplankton** provide a source of antioxidants and Vitamin A to help maintain connective tissue formation and promote healthy skin.

Acticoa® Cocoa has had more than 50 clinical studies performed with positive results suggesting the consumption of cocoa flavanols play an important role in neutralizing free radicals which benefit the skin with increased blood flow and better hydration ensuring our skin remains soft, smooth and supple. Chances of developing wrinkles and crows feet are reduced.

The Science of Capros®

Capros is an effective detoxifier and rejuvenator and an important factor in maintaining healthy skin and protecting it from premature aging. It has been shown to inhibit the activity of collagenase, an enzyme that breaks down and degrades collagen. Capros® blocks the activity of the collagenase enzyme and protects the skin's collagen.

NATURAL BODY HEALTH

The Key to Amazing Health

Cellalife Natural Body Health includes carefully selected ingredients including Certified Organic Icelandic Kelp, Iodine, Matcha Green Tea and **Cellankton™ Marine Phytoplankton**. Together these ingredients provide a wide spectrum of antioxidants, vitamins, amino acids and minerals for the maintenance of good health. Natural Body Health helps in connective tissue formation and to maintain function of the immune system and the thyroid gland. It also helps the body metabolize carbohydrates, fats and proteins and maintain healthy skin.

The Science of Organic Kelp

Laminaria Digitata is sustainably harvested from the mineral rich waters of Northwest Iceland. It is then dried at a controlled low temperature ensuring maximum capture and retention while preventing oxidation. It has earned the highest designation as 100% certified organic. Laminaria Digitata contains 60 minerals, vitamins and amino acids, including calcium, potassium, iron, zinc and vitamins B, C and E. Its high iodine value assists with healthy thyroid function. And it also helps in connective tissue formation, maintains healthy skin and the immune function. Laminaria Digitata is a factor in the overall maintenance of good health.
