

We love our dogs. They are family; our dearest companions. Therefore it makes good sense to be as discerning about the products we use on them as we are on ourselves.

Only natural, pure and safe products will do. Tinderbox recognises that canine health benefits greatly from the plant world, as does our own.

Whether it be protecting torn skin from infection, healing sores, banishing bad smells or soothing aching joints, positive results can be achieved from these healing products designed for humans, yet also suitable for the dogs who live with them.

## Divine Doggy Blend

A safe blend of pure plant oils that are naturally flea repelling. Here is a versatile concentrate to massage through your dog's coat. An excellent additive to shampoo (add 5ml to 50ml of shampoo) to eradicate fleas. May be added to the final rinse of bath water or put in a spray bottle diluted with water (5:100) to treat the infested areas on the dog's body, its bedding and surrounding areas.

**Contains only pure essential oils and nothing else.**

## Divine Dog Organic Pure Plant Food Supplement

Did you know that dogs are not carnivores, but actually omnivores?

They do not need to eat exclusively meat to lead a long, healthy life and there are a lot of good reasons to add plants to your dog's diet.

Adding specially chosen botanicals for their nutritional potency and healing capacity to our dog's food - be it raw meat, a cooked mix with vegetables or solely plant-based - is worthwhile. They will gain from any missing elements that they cannot acquire in the modern environment.

Divine Dog Organic Supplement is a pure plant super food blend to augment your dog's diet, providing a broad array of phytonutrients and actives to enhance your dog's general health and well-being. Promotes healthy skin, vibrant coat and strong nails as well as settling upset bellies and aching joints. The herbs also help calm overexcited behaviour. Produced entirely from whole plant foods (no synthetics).

Organic Pure Plant Whole Foods for your dog. Contains certified organic ingredients: rosehip, chia seed, alfalfa, turmeric, burdock, barley grass, spirulina, milk thistle, dandelion, bladderwrack (wild harvested), chamomile, ginger.

HERBAL  
**Dog Care**

USING TINDERBOX PRODUCTS

For The Active Dog:

## Calendula Tincture

An all-purpose antiseptic wash. Cleanses and disinfects wounds and sores, reducing pain, irritation, and inflammation. Aids in healing. Dilute (5:100) with water and apply directly.

## Bug Free Oil

An all natural oil-based repellent, free from any chemical poisons. Rub on prone areas such as the ears (avoid eyes) to repel flies, mosquitoes and insects.

For Sensitive Skin:

## Chickweed Lotion

An effective botanical emollient to soothe and cool irritated skin. Treats sensitive skin including flaky areas.

## Bug-free Gel

Some dogs just don't like the smell of citronella. Rub on prone areas such as the ears (avoid eyes) to repel flies, mosquitoes and insects. Apply more regularly than the Bug Free Oil as this is water, not oil, based.

Divine Doggy Blend also works well with:

## Foot Powder

Add just a few drops of Tinderbox Doggy Blend for an all-natural fragrant powder to deodorise and repel fleas. Use on your dog between baths or following a wash.

## Hair Care Range

The Tinderbox Shampoo range is suitable for dogs as it is sulphate-free. Tinderbox Dry Shampoo, with apple and rooibos extracts, is especially helpful for dogs with flaky or dry skin conditions. Add Doggy Blend (5:100) to any of the shampoo range for added flea-repelling properties.

For The Older Dog:

## Special Body Rub

Botanical relief for a tired body, particularly effective following over-exertion. A warming and invigorating pure plant blend to massage into affected areas.

## Plant Power Body Rub

With Arnica. A superb relaxant to rejuvenate and restore the body. Simply massage this pure plant product wherever relief is needed.

## Myrrh Tincture

The best preparation to treat the mucous membranes of the body. An antiseptic and astringent wash suitable for treating irritation and infection in the genital and rectal regions. Also assists healing following dental surgery - simply squirt directly onto the gums.

## Dog-Friendly Tinderbox Essential Oils:

Design your own products for your best friend using Tinderbox Essential Oils. Dilute in water (5:100) and use in a spray bottle; put a few drops on your hand and rub directly into your dog's coat; or dilute with milk (5:100) and add to the dog's bath water (milk allows the oils to disperse in water). Also suitable for use in a diffuser, particularly for oils that target emotional health.

**Citronella:** Repels insects and deodorises dog's coat.

**Cypress:** Helps nervous dogs counter fear and stress.

**Eucalyptus:** Counters parasites and clears congestion.

**Geranium:** Improves kidney, liver function; health.

**Grapefruit:** General freshener and disinfectant.

**Juniper:** Helps tired muscles, stiff limbs, sprains, strains.

**Lavender:** Helps recover from illness; insect repellent.

**Lemon:** Circulatory system, improves muscle function.

**Lime:** Tonic to the immune system; deodoriser.

**Mandarin:** Expels gas and helps metabolic system.

**Orange:** Dispels stress and tension; antidepressant.

**Patchouli:** Curbs appetite; soothes nerves.

**Petitgrain:** Eases muscle and joint pains; eases sunburn.

**Rose Geranium:** — The best antidote to a smelly dog.

**Tangerine:** Good digestive tonic, activates tired limbs.

**Tea Tree:** Anti-microbial, fortifies body before surgery.

**Ylang Ylang:** Sedative, eases anxiety and fear.

## Divine Laundry

Add 5mL (capful) of this refreshing and cleansing blend of pure plant oils to your dog's bath water or laundry. Deodorising, antiseptic and gorgeous to use.
