

STEP 1

Lay out all 6 Joovv devices on a scratch-free surface.

STEP 2

Set the Elite bracket and connection bars on the Joovv Elite system, making sure to line up all screw locations, as shown in [Figure A](#).

STEP 3

Hand-tighten the screws with the included Allen wrench.

STEP 4

After setting up the mobile stand using separate instructions, hang your Joovv Elite and proceed to the next step.

STEP 5

Connect the power and patch cords, as shown in [Figure A](#).

STEP 6

Set the pairing switches to the appropriate lead and follow modes, as shown in [Figure A](#).

STEP 7

Plug in the power cords to a wall outlet and you're ready to start Joovvin'!

For comprehensive instructions, please review the product manual that was included with your Joovv devices.

STEP 1

FIG. A

After assembling your Elite following the steps on the opposite side, attach the included floor bumpers on the bottom end caps. First, adjust the nut to the end of the thread. Then insert the nut into the slotted hole and slide forward into position. While pulling down to hold the nut in position, twist the bumper clockwise to lock it in place, as shown in **Figure A**.

STEP 2

FIG. B

Insert two threaded posts in to the top end caps using the far left and far right holes. Then, attach one 90 mm braided cable to each threaded post. Next, connect the anti-tip bracket to each braided cable, and with a pencil, mark the spot directly behind the threaded posts, as shown in **Figure B**.

STEP 3

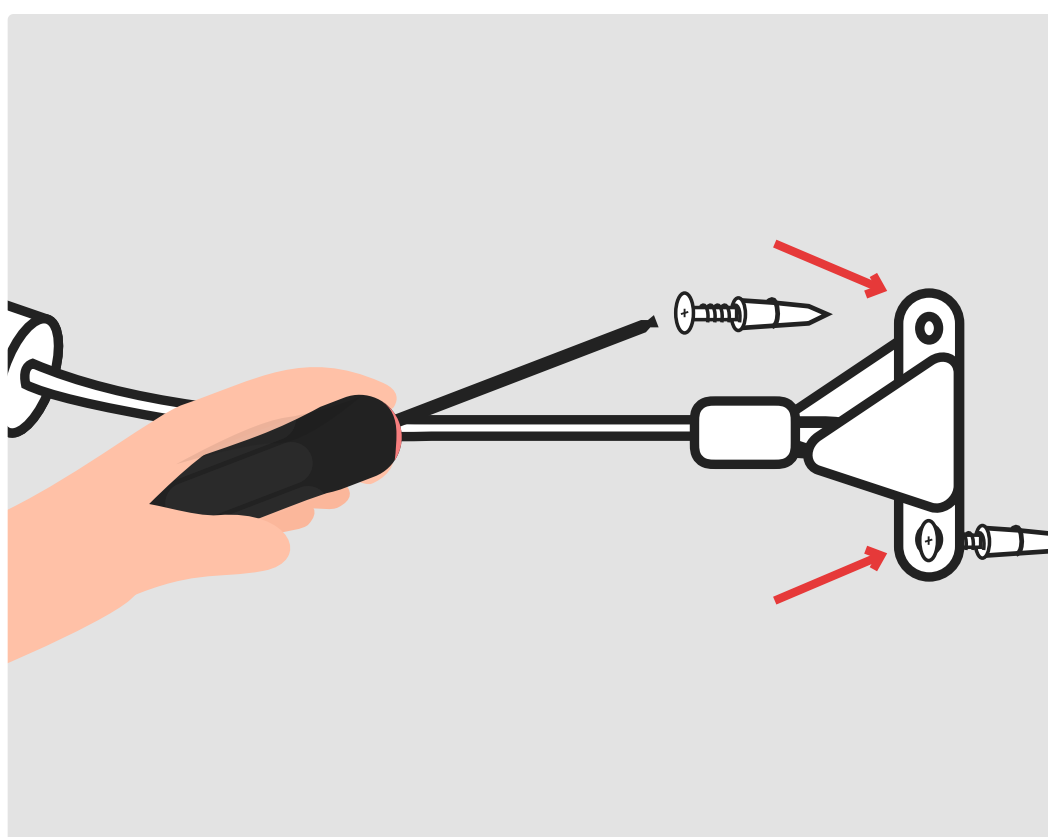

FIG. C

Next, remove the braided cables from the threaded post and reposition your Elite to the side. Place the anti-tip bracket on the wall with the center aligned with the pencil marked location. Then mark each hole location with a pencil. Drill a 7/32" hole for each marked hole and insert the included wall anchors. Use a hammer to tap the anchors into position, then attach the brackets to the wall using the included screws, as shown in **Figure C**.

STEP 4

Place your Elite back into position and plug back in the power cords and turn back on each device. Then, screw the braided cables to the threaded posts securing your Elite and you're ready to start Joovvin'!
