JOOVV

Hardwire Pairing Kit

Quickstart Guide

JOOVV

To pair your Multiple Device Setup using Pairing Cable Kit follow the steps listed below.

Reset All Devices

Step 1

After applying power to the device using the main AC power cord, **reset device by pressing and holding the Power and Light Mode buttons together for 4 seconds.**
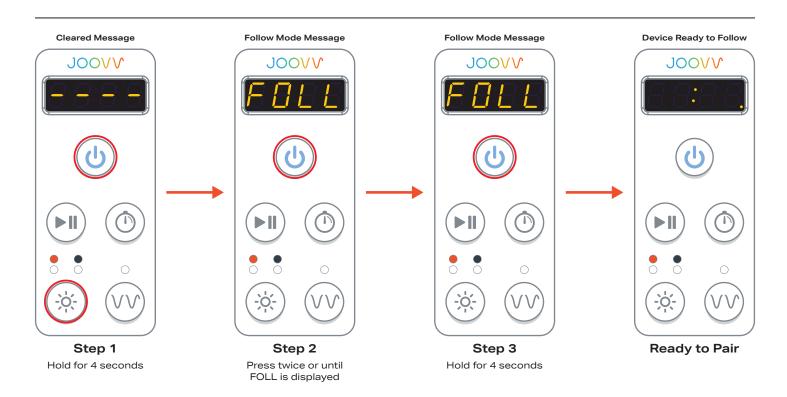

Step 2

Press the Power button twice or until the display reads FOLL.

Step 3

Press and hold the Power button for 4 seconds to confirm.

Unplug the power cord and leave the device in this state. The next time the device receives power it will search for the Lead device.

Repeat steps 1-3 for each device before continuing.

Cleared Message	Follow Mode Message	Follow Mode Message	Device Ready to Follow
Step 1 Hold for 4 seconds	**Step 2** Press twice or until FOLL is displayed	**Step 3** Hold for 4 seconds	**Ready to Pair**

Pairing Cable Kit steps for Multiple Device Setup

Assemble Joovv

Step 4

Assemble and mount devices then connect AC patch cables, main AC power cord, and hardwire pairing cables following the Wire Diagram section on pages 29-32 of the User Manual.

Set Lead Device

Step 5

Locate the Lead device control panel (Example Joovv Quad shown). **Press and hold the Power and Light Mode buttons for 4 seconds** to clear the device mode.
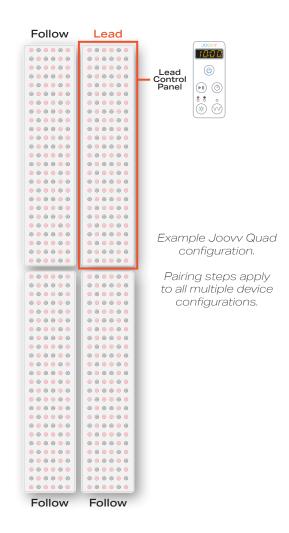

Step 6

Press the Power button once or until the display reads LEAD.
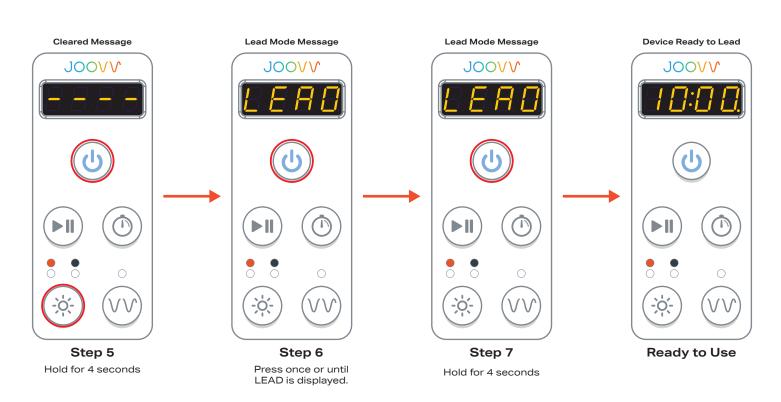

Step 7

Press and hold the Power button for 4 seconds to confirm. Devices will automatically pair and the Lead control panel will display the 10:00 minute session timer.

The Lead device is now the controllable device for the configuration.
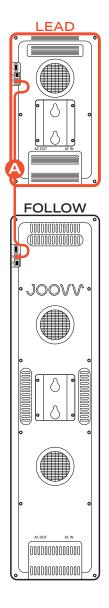

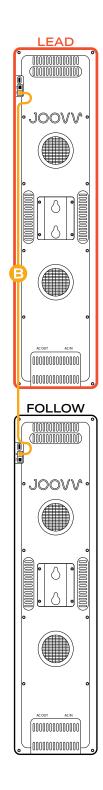

Great job! You're now ready to start Joovvin'!
