

FIND YOUR SIZE

Print out both pages and fold the top page in half at the crop marks. Place the top page over the bottom and align the crop marks to get the most accurate sizing of your ISlide.

Take your shoes off your feet and align your heel with the solid line at the base of the chart. Keeping your weight on your foot, relax your toes. The line that touches your longest toe indicates your size. Since many people have feet of different sizes, it's important to measure both feet. You should purchase slides in the larger of your two sizes.

ACCURACY CHECK:

To ensure correct printing size, place a credit card here. If it fits, the chart was printed correctly.

Printing size should be at 100% scale and fit an 8.5 x 11in page.
