### PRO TIPS FOR HAVING A GREAT PAINT NIGHT

- Acrylic paint can stain, so wear your apron and protect surfaces you are painting on.
- While painting, keep your brushes bristle-end down in your water cup to keep them from drying out.
- Use dry breaks to refill your drinks or snacks. If you don't want to wait, a hair dryer will speed up drying time between layers.
- Paint the sides of your canvas for a finished look - you can even flip it upside down to paint the bottom!
- After painting, wash your brushes thoroughly, reshape the bristles, and lay flat to dry.

### REMEMBER

Every painting will be an original, so don't sweat it if your painting isn't exactly like the tutorial. Feel free to take creative license and make it your own! Your art is unique to YOU. And that's what makes it awesome.
