

# *how to* *stuff* YOUR PILLOW

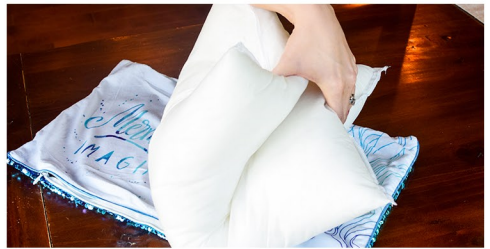

Your cover & pillow insert are wrapped individually (protecting your sequins!). The pillow insert is vacuum-sealed for shipping & will gradually expand once opened.

## *step* ONE

Open the zipper located at the bottom of your pillow

## *step* TWO

Fold your pillow insert in half with one hand

## *step* THREE

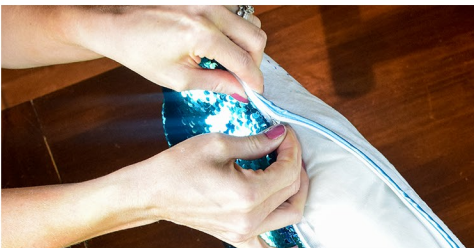

Place folded insert inside your pillow cover

## *step* FOUR

Push the pillow corners to each corner of the cover

## *step* FIVE

Gently pinch the zipper & slowly close the zipper (moving aside sequins as you zip)

*That's it!*

Your pillow insert will take up to 24 hours to expand once you place in the cover -- so your pillow will appear "fuller" in 24 hours.
