

ARC: Anthem Room Correction

Using proprietary processes and the power of your PC the ARC system, years in development and included with Anthem processors and receivers, analyzes each speaker's in-room sound and then computes the required correction to yield optimal performance from every speaker. It's a process that takes less than five minutes! Anthem's approach is a true audiophile solution to the problems of the room. ARC is garnering rave reviews across the industry.

As good as it gets! A collection designed exclusively for those who desire the ultimate in audio/video performance.
