New Jersey's Home for Custom Audio/Video Integration and Installation for Over 16 Years.

Electronics Expo has been serving all of New Jersey for 16 years and has partnered with many of the premium home builders in the state. Our specialties include the design and installation of various types of home entertainment projects. We are licensed and insured and are a one stop solution for all projects. We staff our own in-house designers, electricians, construction, installers, programmers and project managers.

Whether your needs are indoors or outdoors, it's easy to get started. Call us or stop in either our Union or Wayne showroom to schedule a **free consultation**. One of our specialists will visit your home and establish your wants/needs. We will then prepare a customized recommendation based on the information you have provided. When you decide to move forward with things, let our team at Electronics Expo handle the rest.

Customer Testimonials

"Jimmy and Amro are great to work with. I purchased a receiver from them and they were a pleasure to work with. They have high end audio and video gear and are very knowledgeable. Excellent customer service and great pricing as well. Highly recommend.".....Yelp

"Carl, my service rep, was excellent from start to finish. Him and his team worked with me to ensure I got quality hands-on service. The product selection was easy and the team walked me through what was best for my needs and budget. I would recommend them hands down. I look forward to working with them further in the future. Great Service, Great Product selection and awesome installation results.".....Houzz

"I love the selection at Electronics Expo and the service is great! It is the only place I will buy my home equipment. I always opt for them to do the installation and I have been a very happy customer every time.".....Houzz

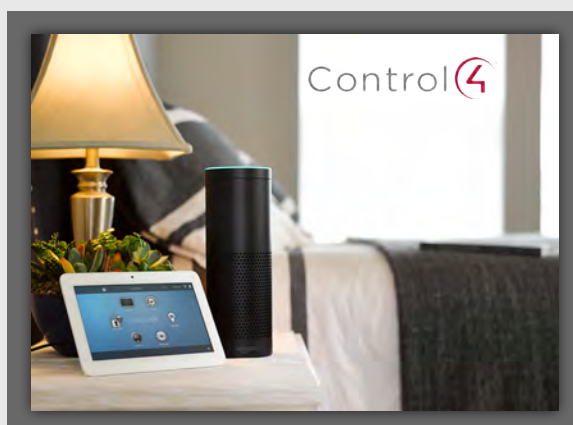

Our Services

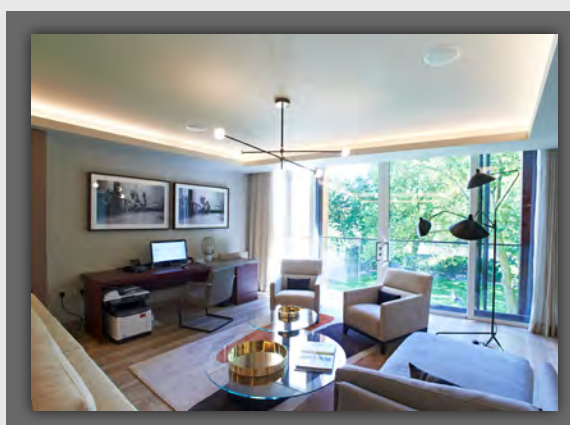

Home Theater Design and Installation

Let our experts design and install the home theater you've been dreaming about. We carry the best brands and feature the latest technologies in projectors, screens, televisions and audio equipment.

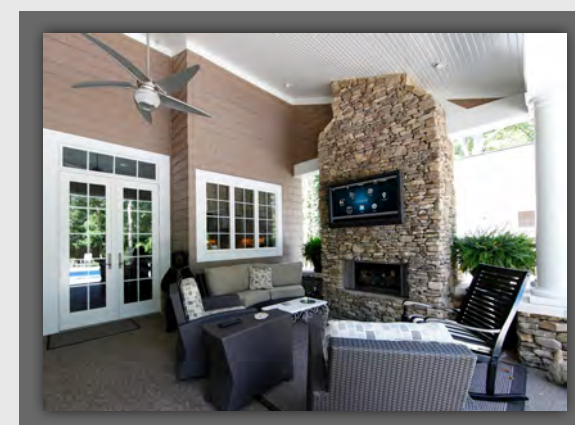

Home Automation

Smart home technology is here to stay. Lights. Temperature. Multi-room music. A/V equipment. Control all of these and more with a single remote, a mobile phone/tablet, or even Amazon Alexa.

Distributed Audio

Stream music to every room of your house or business, and control it all with a single app on your phone or tablet. Have in/wall or in/ceiling speakers installed in every room for great sound with a low profile

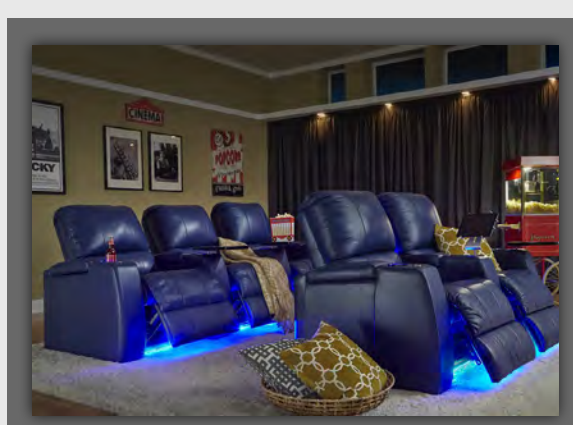

Outdoor Entertainment

Enjoy TV and music outside with a weatherproof setup consisting of an outdoor television and some outdoor speakers.

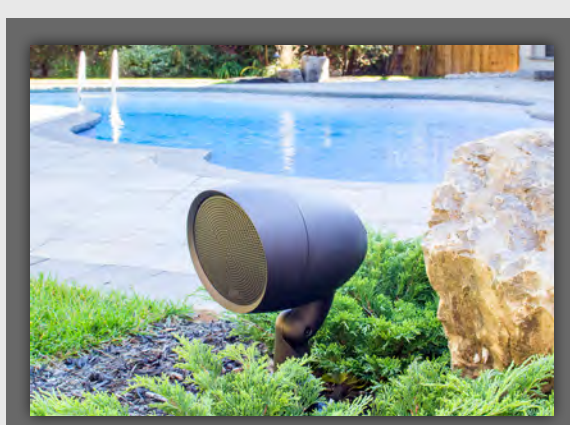

Surveillance and Cameras

Doorbell stations with cameras and two-way intercom as well as high resolution surveillance cameras will keep you safe from unwanted guests.

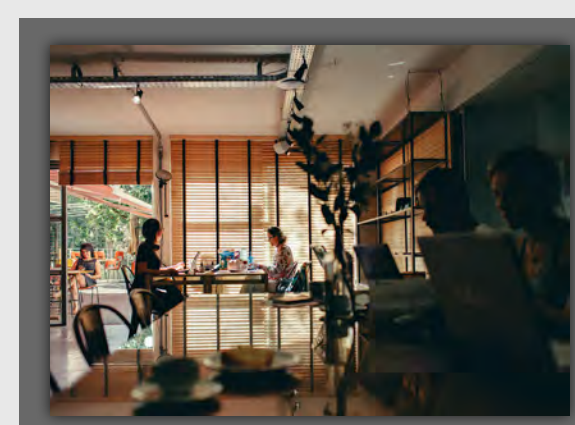

Home Theater Furniture

Beautiful, fully customizable home theater furniture for all types of rooms and applications.

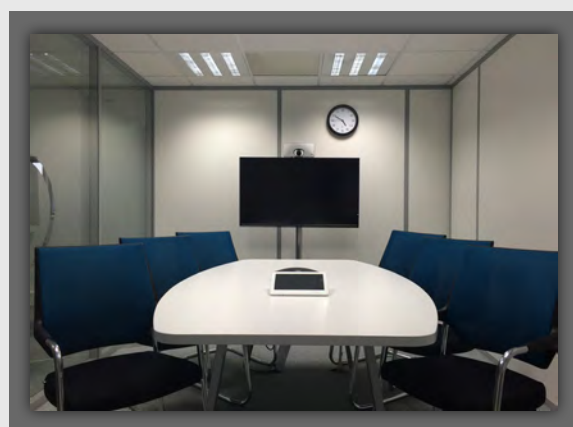

Landscape Audio and Lighting

Tired of seeing those speakers mounted to the side of your house? Let our team install a real landscape audio system, which includes an in-ground subwoofer and concealed wiring. Add in some landscape lighting to set the mood for an evening get together.

Commercial Audio Systems

Control music or TV audio in any audio zone, from anywhere. Integrate audio and video-conferencing systems into one easy-to-use experience.

Commercial/Business Video Systems

Television monitors, projectors and distributed video systems for offices, conference rooms and retail businesses.

Commercial Smart Control

Audio, video, lighting and temperature control made easy with a tablet or touch screen controller. Access and control security cameras from anywhere. Save energy and money.
