## **Mountainshack Waterbottles (All Models) Care Instructions**

- Dismantle all removal parts and wash and rinse them separately as below
- Wash in soapy water that is as hot as you can stand it and rinse thoroughly.
- Ensure inside is dry before storing
- If the bottle becomes tainted by contents we suggest you sterilize it using baby's bottle sterilizers such as Milton tablets.
- Do NOT use bleach or any harsh scrubbing materials as this will damage the finish on the product.
- The bottles are dishwasher safe but we recommend hand washing as it is both quicker and more environmentally friendly.
