GLOW IN THE DARK KICKBALL SET

ASSEMBLY INSTRUCTIONS

HOME PLATE ASSEMBLY

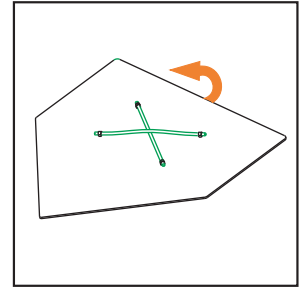

1. Take two individual glow sticks out and bend them until you hear a crackling sound and see them light up.

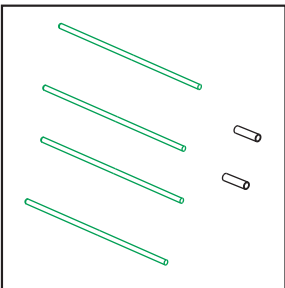

2. Lay the base flat on the ground with the clips facing up. Take one of the sticks and slide it diagonally into the clips.

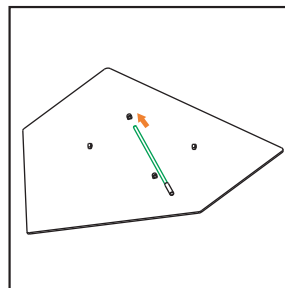

3. Take the second glow stick and slide it into the other two clips. This stick will sit on top of the stick attached in Step #2.

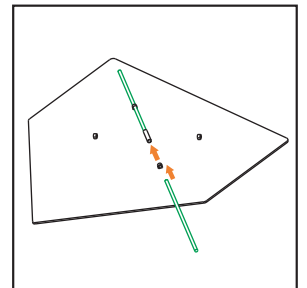

4. Once the glow sticks are securely attached, flip the base over so the glow sticks are touching the ground.

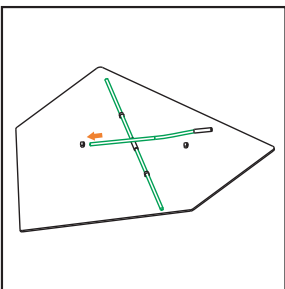

1. Take four individual glow sticks out and bend them until you hear a crackling sound and see them light up. Also take two connector tubes per base.

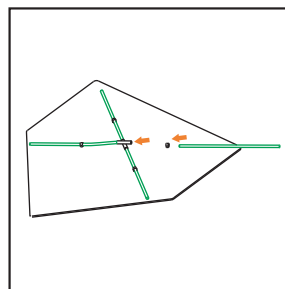

2. Lay the base flat on the ground with the clips facing up. Take one of the connector tubes and attach it to one end of the stick. Slide the stick diagonally into one clip.

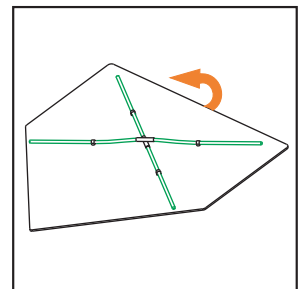

3. Then, slide the second stick diagonally through the second clip and attach it to the connector tube.

4. Next, take the second connector tube and attach it to one end of the third stick. Slide the stick diagonally into the remaining clip.

5. Then slide the fourth stick diagonally through the final clip and attach the connector tube.

6. Once the glow sticks are securely attached, flip the base over so the glow sticks are touching the ground.
