

GLOW-NANA™ LOUNGER SET UP INSTRUCTIONS

PATENT PENDING

RUKKET.COM / **RukketSports**

Please call us if you have any questions or concerns at **1-855-4RUKKET**
Please read our product safety warnings before setup

1. Remove lounger from carry bag. Unbuckle and unroll the lounger.

2. Open one of the two air mouths and run forward a few steps to inflate that portion.

3. Repeat for the other air mouth and quickly seal the mouth by closing the opening and rolling it 3-5 times until tight.

4. Once rolled, grab the clips and buckle them together.

5. Flip the carry bag inside out to expose the comfort lining.

6. Stuff a hoodie or other garment of clothing into the carry bag to create a pillow.

7. When the lounger is inflated, open the center and insert the LED light into the sleeve.

8. Hop in the lounger and relax all day into the night!

WARNING:

• Never leave children unattended to prevent suffocation and injury • Do not place near an open fire. Sparks may cause damage to your Glow-Nana™ Inflatable Lounger • To avoid puncturing your Glow-Nana™ Lounger, please avoid placing your lounger on sharp or pointy surfaces or objects • Do not exceed maximum load weight 200kg/440lb • Repeat steps 2-4 if your Glow-Nana™ Lounger gets too soft for you. Remember to remove the light bar before re-filling • Review light bar packaging for additional warnings
