LIGHT UP BUNGALOW

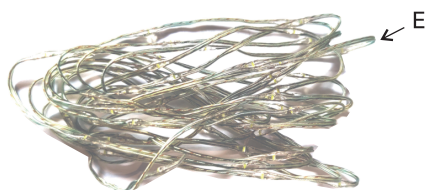

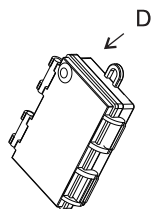

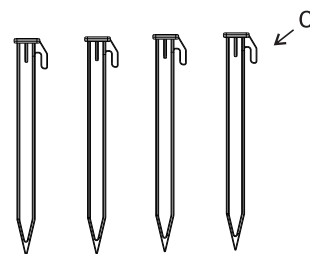

SET UP INSTRUCTIONS

1. Take out the beach tent from the carrying bag.

2. Lay the beach tent flat and with hub upright.

3. Stretch out the second node of pole to make sure the poles are fully extended and spread out.

4. Standing behind the tent, use one hand to hold the central hub. Using your other hand, pull the rope up to its fully extended position.

5. Your tent should be in the upright position now. Tie the string together to close the hole where the light was inserted so it doesn't slide out.

TAKE DOWN INSTRUCTIONS

1 & 2. With both hands holding the pole, use your thumb to press down the bottom layer of the central hub until the entire structure completely falling down.

3. Lay the beach tent flat and with hub upright. (When taking down please make sure the air in the tent is completely released out)

4. With both hands holding the pole part near the connection point, pull in opposite directions to make separation in the middle of the lock.

5. Fold the second node of pole, and fold the fabric and pole inward toward to the central hub.

6. Use provided strap to tie the rolled tent.
