## STEP 1

Attach the top loop of the wing to the knob at the top of the net's side pole.

## STEP 2

Attach the wing's velcro 5 or 6 squares into the side of the main net so that the two nets overlap. This will eliminate any holes where a ball could get through.

## STEP 3

Use the stakes provided to secure the corners to the ground or weigh the corners down with something heavy.

## WARNING

Please use adult supervision and follow the instructions when setting up and using this net. Regular use or abuse will eventually strain the netting and may break it. Do not stand behind the net. This net is not intended for personal protection. Failure to follow these precautions could result in serious injury or damage to property.

## PASO 1

Una el lazo superior del ala a la perilla en la parte superior del poste lateral de la red.

## PASO 2

Coloque el velcro del ala 5 o 6 cuadrados en el lado de la red principal para que las dos redes se superpongan. Esto eliminará cualquier agujero por donde pueda pasar una bola.

## PASO 3

Usar las estacas proporcionadas para asegurar las esquinas al suelo o pesar las esquinas con algo pesado.

## ADVERTENCIA

Utilice la supervisión de un adulto y siga las instrucciones al configurar y usar esta red. El uso o abuso regular eventualmente forzará la red y puede romperla. No te quedes detrás de la red. Esta red no está diseñada para protección personal. El incumplimiento de estas precauciones podría ocasionar lesiones graves o daños a la propiedad.
