CHICKEN COOP USER MANUAL

We continue to be committed to offering tools at competitive prices. "Save Half", "Half Price", or any other similar expressions used by us only represent an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and do not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when placing an order with us if you are saving half in comparison with the top major brands.

VEVOR®

Assemble the parts as shown below:

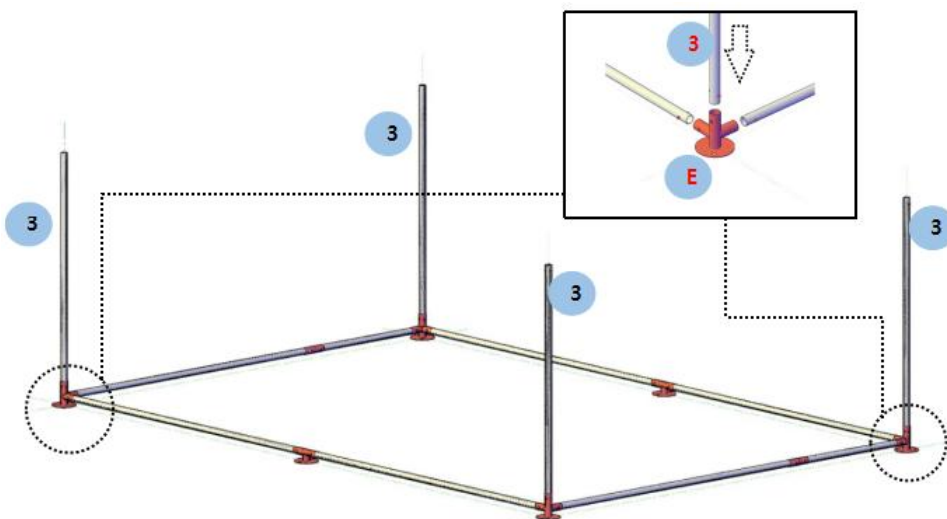

Step1: Assemble 2A+C+2B into one piece (5 pieces in total)

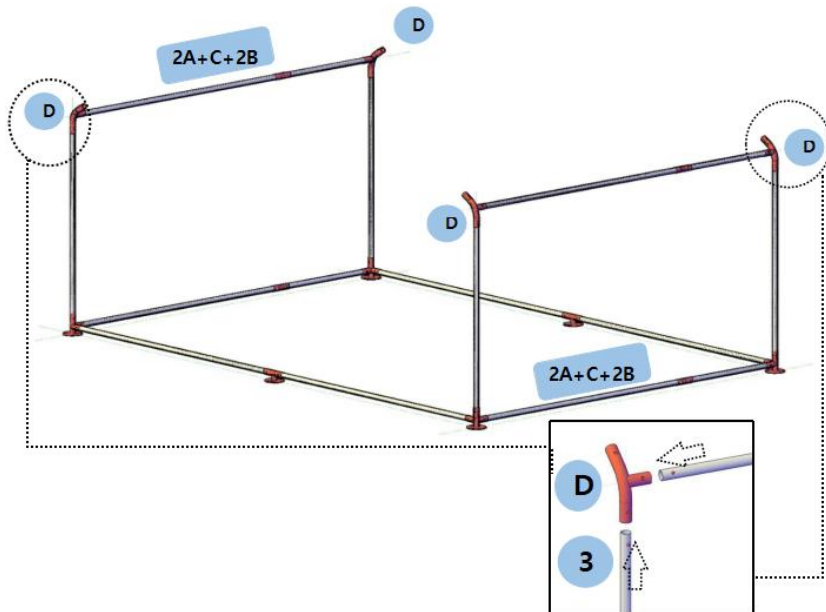

Step2: Install the bottom frame according to the part number in the picture below.

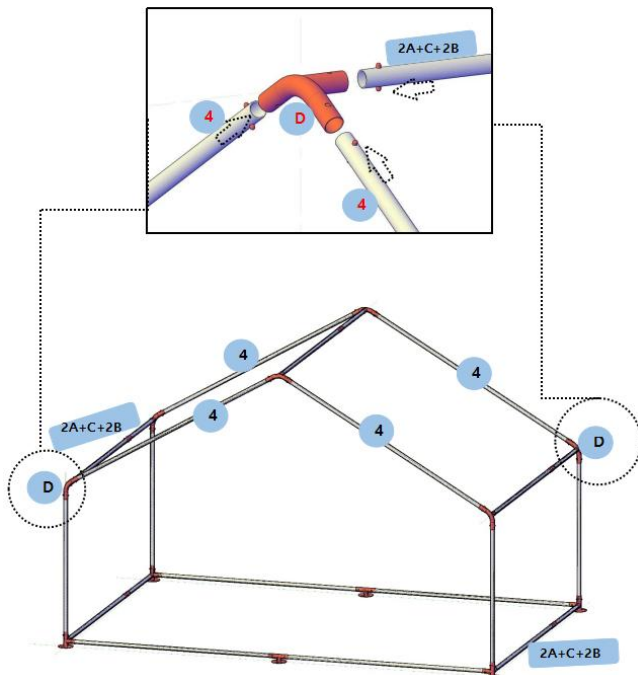

Step3: Install the column according to the part number below.

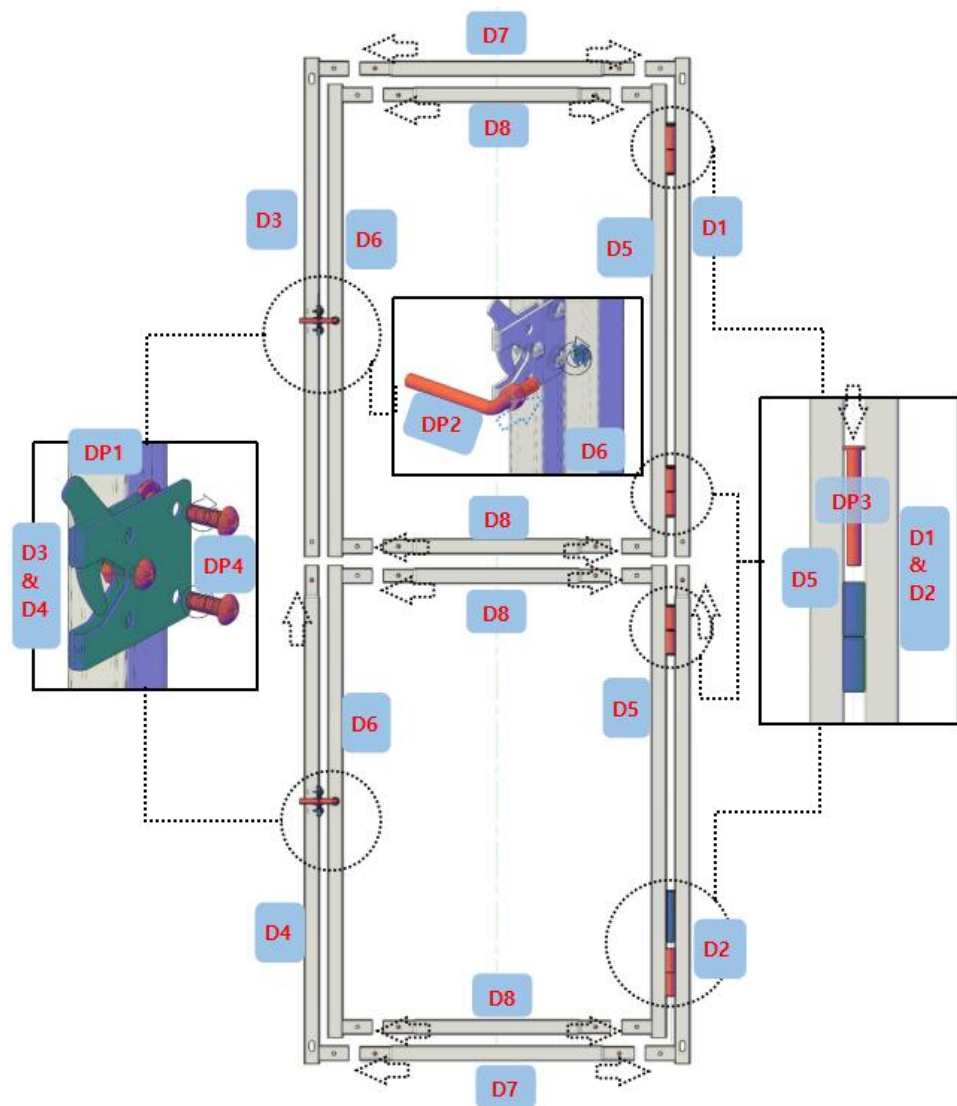

Step4: Install the beam according to the part number in the picture below.

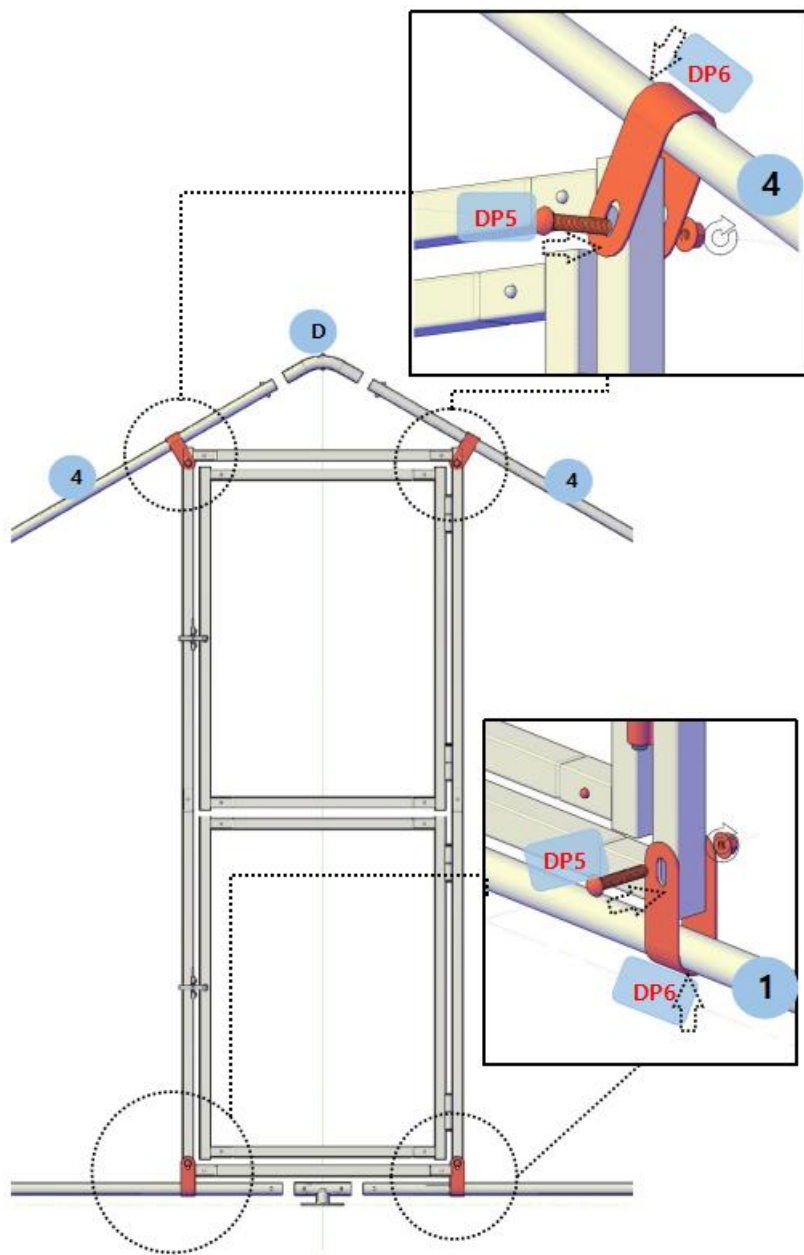

Step5: Install the top surface according to the part number in the figure below.

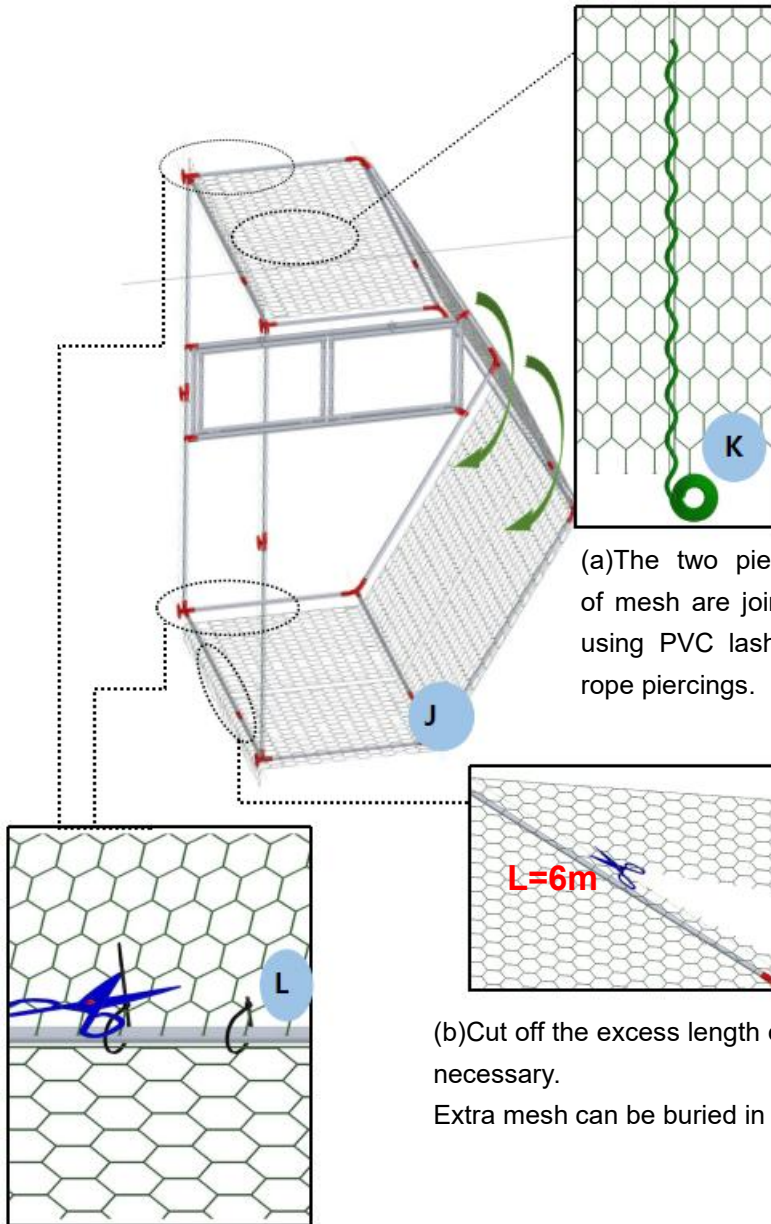

Step6: Install the door according to the part number below.

Step7: Attach the door to the frame.

Step8: Installation of top mesh. The laying mesh can be pre-cut to 6x1m.

(a) The two pieces of mesh are joined using PVC lashing rope piercings.

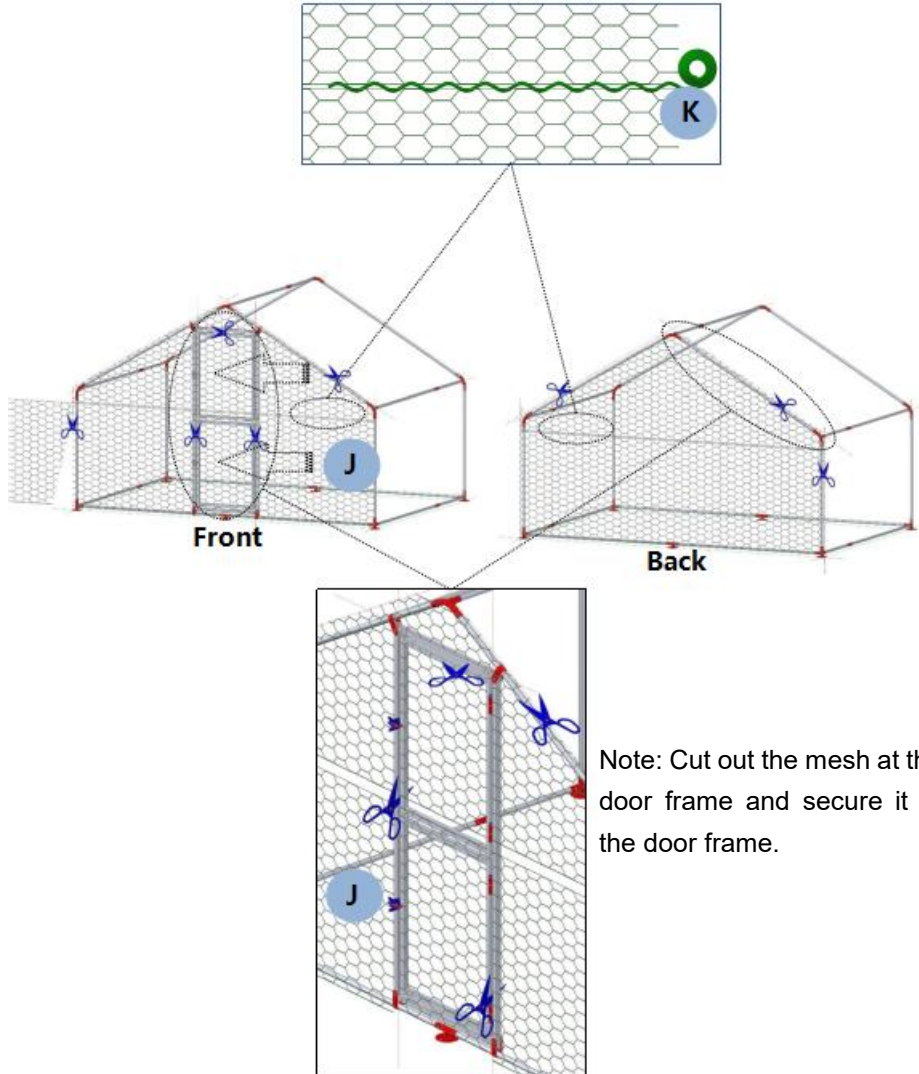

(b) Cut off the excess length of mesh if necessary.

Extra mesh can be buried in the soil.

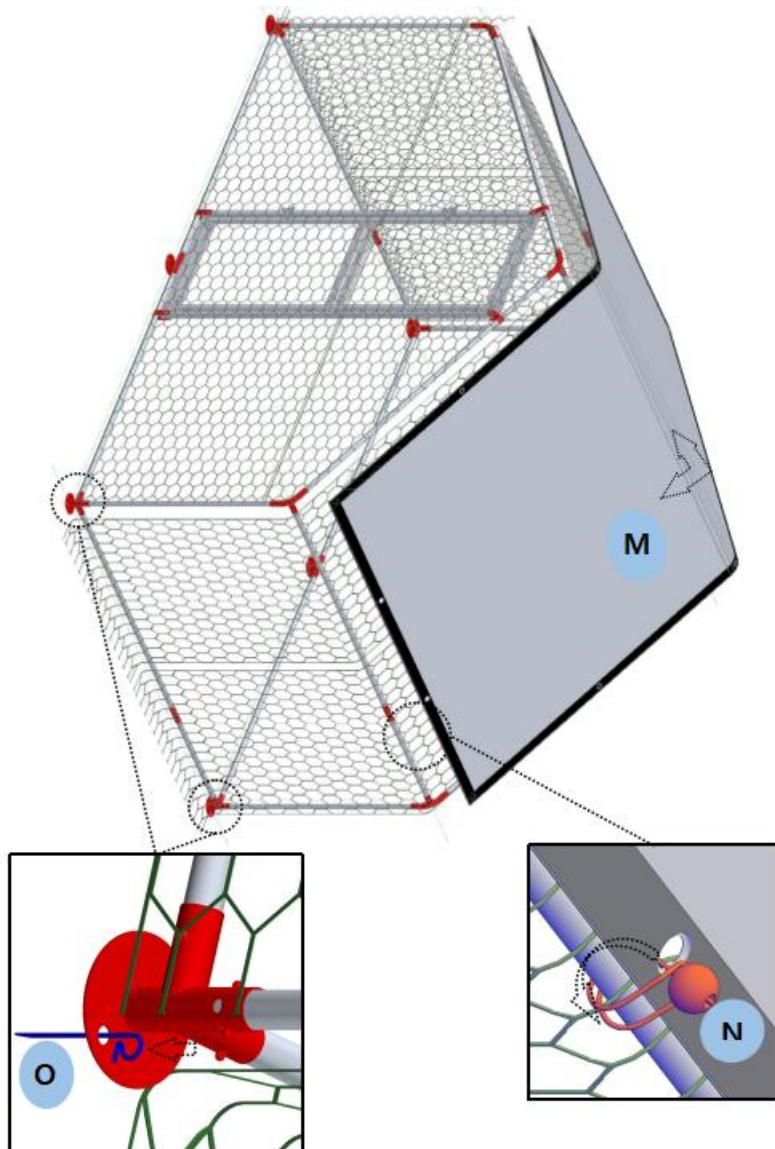

(c) Secure the mesh to the frame with cable ties.

Cut off the excess length of cable ties.

Step9: Install front and rear mesh (The two mesh are interlaced with PVC lashing rope.) and secure to the frame with excess length cut.

Step10: Lay the tarp over the top and secure it with rubber cords.
Secure the chicken coop to the floor with tent pegs.
