### SAFETY WARNINGS

▲ WARNING: Riding a UB1 does present potential risks and caution is required. Like any riding product, the UB1 has inherent hazards associated with its use (for example, falling off or riding it into a hazardous situation). Like any riding product, UB1 can and is intended to move and it is therefore, of course, possible to lose control or otherwise get into dangerous situations. Both children, and adults responsible for supervising them, must recognize that if such things occur, a rider can be seriously injured or die even when using safety equipment and other precautions. RIDE AT YOUR OWN RISK AND USE COMMON SENSE.

WARNING: PARENTAL AND ADULT RESPONSIBILITY AND SUPERVISION IS NECESSARY: Because products, like UB1, can and do present potential hazards plainly associated with their use, it is well recognized THE NEED FOR EXERCISE OF PARENTAL RESPONSIBILITY IN SELECTING RIDING PRODUCTS APPROPRIATE TO THE AGE OF A CHILD, OR PARENTAL SUPERVISION IN SITUATIONS IN WHICH CHILDREN OF VARIOUS AGES MAY HAVE ACCESS TO THE SAME RIDING PRODUCTS, IS IMPORTANT. Not every product is appropriate for every age or size of child, and different age recommendations are found within this category of product which are intended to reflect the nature of the hazards and the expected mental or physical ability, or both, of a child to cope with the hazards.

WARNING: NOT FOR RIDERS UNDER AGE 14 OR HEAVIER THAN 220 LB (100 KG). DO NOT EXCEED THE WEIGHT LIMIT OF 220 lb (100 kg) — including backpacks and other items that might be carried. Exceeding the weight limit could injure the rider and damage the UB1. Rider weight alone also does not necessarily mean a person's size is appropriate to fit or maintain control of the UB1. Keep this product away from small children and remember that this product is intended for use only by persons who are, at a minimum, completely comfortable and competent while operating the product.

Razor recommends that children under the age of 14 not be permitted to use this product. This recommendation is based not just on age or weight or height; it reflects consideration of expected maturity and skills as well as physical size. The recommended rider age of 14 years or older is only an estimate and can be affected by the rider's size, weight, or skills — not every rider 14 years old or older will be suited to the product. Certainly, any rider unable to fit comfortably on the UB1 should not attempt to ride it, but a parent's decision to allow his or her child to ride this product should be based on the child's maturity, skill, and ability to follow rules. Razor emphasizes that adults are strongly advised not to disregard Razor's recommendations or permit younger children to ride the UB1.

Keep this product away from small children and remember that it is intended for use only by persons who are, at a minimum, completely comfortable and competent while operating.

Persons with any mental or physical conditions that may make them susceptible to injury, impair their physical dexterity or mental capabilities to recognize, understand, and follow safety instructions and to be able to understand the hazards inherent in the use of any ride-on product, should not use or be permitted to use products inappropriate for their abilities. Persons with heart conditions, head, back or neck ailments (or prior surgeries to these areas of the body), or pregnant women, should be cautioned not to operate such products.

DO NOT EXCEED THE WEIGHT LIMIT OF 220 lb (100 kg). Rider weight does not necessarily mean a person's size is appropriate to fit or maintain control of the UB1.

#### **CHECK AND MAINTAIN PRODUCT CONDITIONS**

Before use, check to confirm that covers and guards are in place and in serviceable condition. Check that the brake is functioning properly, that the front tire is inflated properly and has sufficient tread remaining and that the rear wheel is free of flat spots from wear. The product should be maintained and repaired in accordance with the manufacturer's specifications, using only the manufacturer's authorized replacement parts, and should not be modified from the manufacturer's original design and configuration.

-12 -12 -13 -14 -18

ACCEPTABLE RIDING PRACTICES AND CONDITIONS
Always check and obey any local laws or regulations which may affect the locations where the UB1 may be used. Keep safely away from cars and motor vehicle traffic at all times. Only use where allowed and with caution.

Do not activate the throttle unless you are on the UB1 and in a safe, outdoor environment suitable for riding. Once the throttle is activated the UB1 will move forward.

The normal powered top speed of this product will be approximately 13.5 mph (22 km/h), which can be affected by conditions, such as rider weight, inclines and battery charge level. Avoid excessive speeds that can be associated with downhill rides.

Maintain a hold on the handlebars at all times. Do not touch the brake or motor on your scooter when in use or immediately after riding, as these parts can become very hot.

Ride defensively. Watch out for potential obstacles that could catch your wheel or force you to swerve suddenly or lose control. Be careful to avoid pedestrians, skaters, skateboards, scooters, bikes, children or animals who may enter your path, and respect the rights and property of others.

The UB1 is intended for use on flat, dry surfaces, such as pavement or level ground, without loose debris, such as sand, leaves, rocks or gravel. Wet, slick, bumpy, uneven or rough surfaces may impair traction and contribute to possible accidents. Do not ride your product in mud, ice, puddles or water. Watch out for potential obstacles that could catch your wheel or force you to swerve suddenly or lose control. Avoid sharp bumps, drainage grates, and sudden surface changes.

Do not attempt or do stunts or tricks. The UB1 is not made to withstand abuse from misuse, such as jumping, curb grinding or any other type of stunts. Racing, stunt riding, or other maneuvers also enhance risk of loss of control, or may cause uncontrolled rider actions or reactions.

Never allow more than one person at a time to ride the product.

Do not ride at night or when visibility is limited.

Never use near steps or swimming pools.

Do not allow hands, feet, hair, body parts, clothing, or similar articles to come in contact with moving parts or wheels while the motor is engaged.

Do not touch electric motor when in use or immediately after riding.

Never use headphones or a cell phone to talk or text when riding.

Never hitch a ride with a vehicle.

Do not ride your product in wet or icy weather and never immerse in water, as the electrical and drive components could be damaged by water or create other possibly unsafe conditions. Never risk damaging surfaces, such as carpet or flooring, by use of an electric scooter indoors.

# **SAFETY WARNINGS**

#### PROPER RIDING ATTIRE

Always wear proper protective equipment, such as an approved safety helmet (with chin strap securely buckled), elbow pads, and kneepads. A helmet may be legally required by local law or regulation in your area. A long-sleeved shirt, and long pants are recommended. Always wear shoes and keep shoelaces tied and out of the way of the wheels and motor. Never ride barefooted or in sandals.

#### **USING THE CHARGER**

The charger supplied with the product should be regularly examined for damage to the cord, plug, enclosure and other parts. In the event of such damage, the product must not be charged until the charger has been repaired or replaced.

Use only with the recommended charger.

Use caution when charging.

The charger is not a toy. Charger should be operated by an adult.

Do not operate charger near flammable materials.

Unplug charger and disconnect from product when not in use.

Always disconnect from the charger prior to wiping down and cleaning your product with damp cloth.

FAILURE TO USE COMMON SENSE AND HEED THE ABOVE WARNINGS FURTHER INCREASES RISK OF SERIOUS INJURY. USE AT YOUR OWN RISK AND WITH APPROPRIATE AND SERIOUS ATTENTION TO SAFE OPERATION. USE CAUTION.

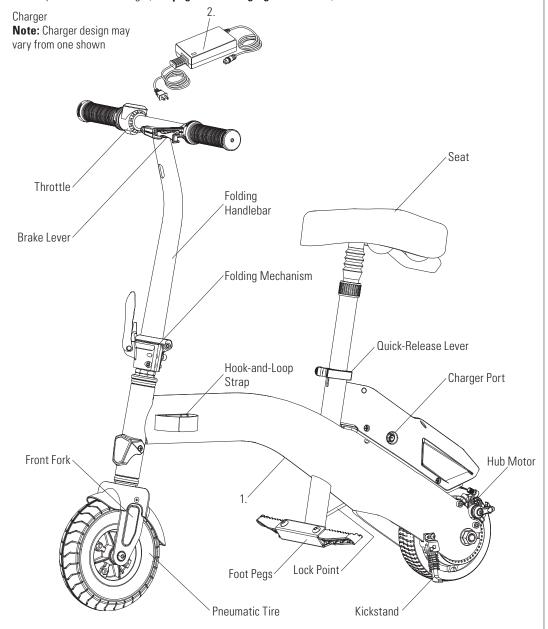

# **BEFORE YOU BEGIN**

Remove contents from box. Remove the separators that protect the components from damage during shipping. Inspect the contents of the box for scratches in the paint, dents that may have occurred during shipping. Because your scooter was assembled and packed at the factory, there should not be any problems, even if the box has a few scars or dents.

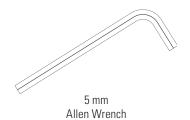

MAKE SURE POWER BUTTON IS TURNED "OFF" BEFORE CONDUCTING ANY ASSEMBLY OR MAINTENANCE PROCEDURES.

#### ☐ Estimated Assembly and Set-Up Time

Allow up to 5 minutes for assembly, not including initial charge time. Allow up to 5 hours for charge (see page 7 for charging information).

## ☐ Required Tool

# **A WARNING:** DO NOT USE NON-RAZOR PRODUCTS WITH YOUR SCOOTER.

Razor scooters have been built to certain Razor design specifications. The original equipment supplied at the time of sale was selected on the basis of its compatibility with the frame, fork and all other parts. Certain aftermarket products may not be compatible and will void the warranty.

#### **Product ID Locations:**

(See locations to the left)

- 1. Underneath Product
- 2. Charger
- 3. UPC Side of Box (Not Shown)

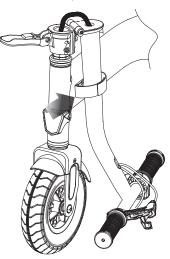

#### **Box Contents:**

- UB1
- Charger
- Owner's Manual
- 5 mm Allen Wrench

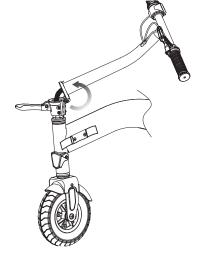

# **ASSEMBLY AND SET-UP**

# ☐ Unfolding the Scooter for First Time Use

Turn power button to the **OFF** position.

**1** Pull open the strap that secures the handlebars to the side of the scooter.

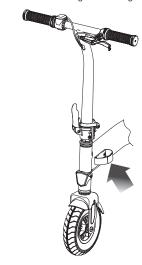

2 Raise the handlebars.

**Note:** Make sure the cables/wires are inside the steertube before closing the folding mechanism.

**3** Push the folding mechanism up to lock into place.

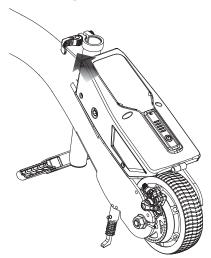

4 Close the strap.

### **A** WARNING:

Keep fingers clear of the folding mechanism when folding or unfolding the scooter. Make sure others are standing clear.

# **ASSEMBLY AND SET-UP**

# ☐ Attaching the Seat

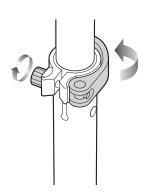

1 Open the quick-release lever.

**2** Insert the seat post. Adjust the seat to the desired height and close the quick-release lever to lock into place.

**Note:** The assembly and adjustment should not pass the vertical safety lines **(A)**.

A WARNING: Failure to properly secure the quick-release lever may cause the seat to telescope down while riding and may cause you to lose control and fall.

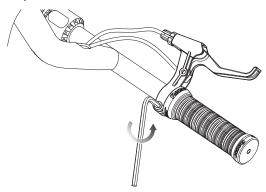

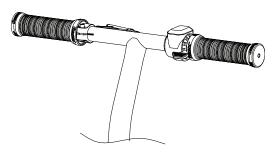

**Note:** The tension of the quick-release lever can be adjusted by manually tightening or loosening the Allen bolt. Be careful not to over-tighten. You should always be able to open and close the quick-release lever by hand and the seat should slide freely when the quick-release is open.

# **ASSEMBLY AND SET-UP**

## ☐ Adjusting the Brake Lever

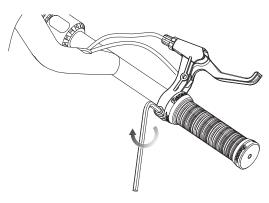

Required Tool: 5 mm Allen Wrench

**1** Loosen brake lever as shown with a 5 mm Allen wrench.

2 Adjust brake lever to desired position.

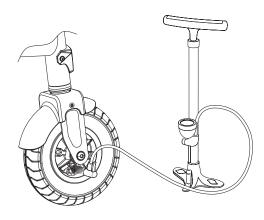

**3** Tighten brake lever as shown with a 5 mm Allen wrench

#### □ Inflating the Tire

The front tire is inflated when shipped, but it invariably may lose some pressure between the point of manufacturing and your purchase. Always inflate tire to the correct PSI before first time use.

Lower air pressure can result in a shorter ride time. Periodically check front tire. Reinflate when needed.

1 Using a bicycle-style tire pump equipped for a Schrader-type valve, inflate the front tire to the correct PSI indicated on the sidewall of the tire.

#### **A** WARNING:

Do not use the electric scooter for the first time until you have inflated the front tire to the correct PSI. Failure to do so may damage your electric scooter and void your warranty.

#### A WARNING:

Do not overinflate, as this could damage the tire or wheel.

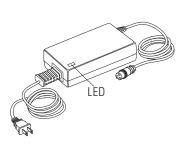

**Note:** The pressure air supplies found at gasoline stations are designed to inflate high-volume automobile tires. If you decide to use such an air supply to inflate your electric scooter tire, first make sure the pressure gauge is working, then use very short bursts to inflate to the correct PSI. If you inadvertently overinflate the tire, release the excess pressure immediately.

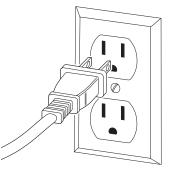

**Need Help?** Visit our website for replacement parts, product support, a list of authorized service centers in the US and customer service contact information at **www.razor.com**. Please have the product I.D. code (located on the white label of your product) available for better assistance. Additional Customer Service contact information is listed at the back of this manual.

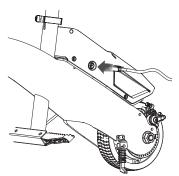

# **CHARGING THE BATTERY**

Your UB1 may not have a fully charged battery; therefore you must charge the battery prior to use. Be sure to charge the battery in a clean, dry location away from direct sunlight, flames or sparks.

- Initial charge time: 5 hours.
- Recharge time: up to 4 hours, even if the light turns green. Recommended maximum charging time is 24 hours
- · Always charge the battery immediately after riding.
- Fully charge battery before storing for extended periods of time.
- Unplug charger from the wall outlet when not in use.
- Failure to recharge battery periodically may result in a battery that will not accept a charge.
- Make sure the power button is turned **OFF** when product is not in use. If the power button is left on for an extended period of time, the battery may reach a stage at which it will no longer hold a charge.
- Run time: Up to 40 minutes of continuous ride time. Run time may vary depending on riding conditions, rider weight, climate, and/or proper maintenance.
- Constant starting and stopping may shorten ride time.
- Battery life can vary depending on proper maintenance and usage of the product.
- Do not charge at or below 32°F (0°C).

Charger (Note: Charger design may vary from one shown)

**Brake** 

1 Plug the charger plug into wall outlet. The light on the charger should be green.

Note: If green light (LED) does not turn on, try a different outlet.

2 Note: Make sure power button is in the **OFF** position. Plug the charger into the charger port. The light on the charger should turn red during charging. The light will turn green again when charging is complete.

**Safety Gear** 

The charger supplied with the UB1 should be regularly examined for damage to the cord, plug, enclosure and other parts. In the event of such damage, the UB1 must not be charged until it has been repaired or replaced.

**A** WARNING: Use ONLY with

the recommended charger. Batteries

are only to be charged under adult

toy. Always disconnect the charger

before wiping down and/or cleaning

supervision. The charger is not a

the UB1 with a damp cloth.

Chargers have built-in overcharge protection to prevent battery from being overcharged.

Wall outlet - Green (stand by) Wall outlet and product -Red (charging)

Wall outlet and product -Green (charged)

Note: Continue charging product even if light turns green prior to 4 hours.

**A WARNING:** Battery charge can deplete over time. Periodically recharge battery when not in use.

Model	<b>Voltage</b>	<b>Capacity</b>	Charge	Operating
	(Nominal) Vdc	(Nominal) Ah	Temperature Range	Temperature Range
UB1	37	3.2	0° to 40°C 32° to 104°F	-10° to 40°C 14° to 104°F

# PRE-RIDE CHECKLIST

Always wear proper protective equipment, such as an approved safety helmet (with chin strap securely buckled), elbow pads, and kneepads. A helmet may be legally required by local law or regulation in your area. A long-sleeved shirt and long pants are recommended. Always wear shoes and keep shoelaces tied and out of the way of the wheels and motor. Never ride barefooted or in sandals.
Laws and Regulations Always check and obey any local laws or regulations.
Do not assume that your existing insurance policies necessarily provide coverage for product use. Check with your insurance company for information regarding insurance.
Storage Prolonged exposure to UV rays, rain and the elements may damage the enclosure materials, store indoors when not in use.

# **USAGE**

#### □ How to Ride

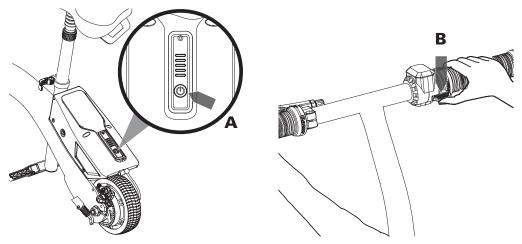

Do not activate the thumb throttle unless you are on the UB1 and in a safe, outdoor environment suitable for riding.

Put kickstand up.

Press the power button (A), the LEDs will light up.

Get on the scooter and place both hands on the handlebars then press down on the thumb throttle (B).

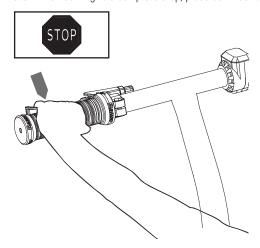

Note: Keep both feet on the foot pegs when unit is in motion.

#### ☐ How to Stop

To stop, release the throttle and apply the hand brake, by squeezing the brake lever, until the product comes to a complete stop. Razor recommends that you practice applying the brake options at various speeds and in an open area free from obstructions before riding your scooter around others.

**Note:** When coming to a complete stop, place both feet on the ground to balance the unit.

**Note:** As an additional safety feature, the scooter is designed to cut power to the motor when the brake is applied.

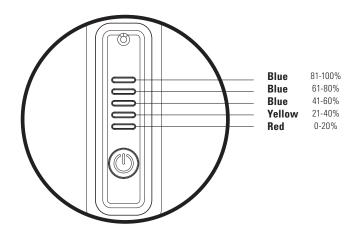

**Note:** Practice riding only in wide open areas clear from curbs, parking blocks and other obstacles. Impacting the wheels against any hard surface can damage the wheels. Wheels are not covered under the limited warranty.

# USAGE

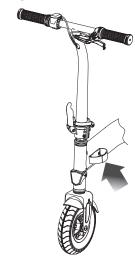

☐ Battery Power Level Indicator
3 Blue + 1 Yellow + 1 Red Indicator Lights - Battery is sufficiently charged.

Yellow + Red Indicator Lights - Charge product as soon as possible. If you continue to ride the product, the yellow light will turn off indicating low power.

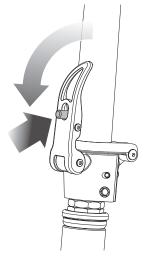

Red Indicator Light - Stop riding and charge product immediately.

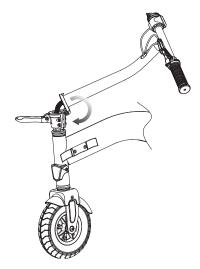

### ☐ Folding Scooter

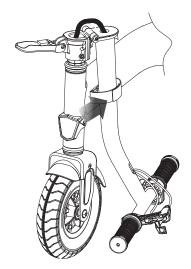

**1** Pull open the strap that secures the handlebars to the side of the scooter.

**2** Release the folding mechanism by pressing the button and pulling the lever down.

**3** Lower the handlebars.

**4** Secure the strap around the handlebars.

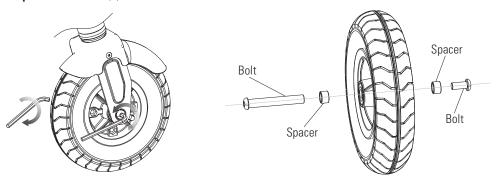

#### **A** WARNING:

Keep fingers clear of the folding mechanism when folding or unfolding the scooter. Make sure others are standing clear.

# **REPAIR & MAINTENANCE**

#### ☐ Front Tire Replacement

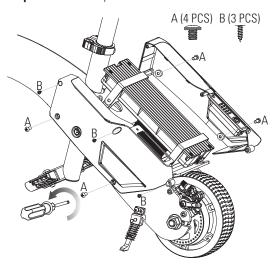

Required Tools: Two (2) 5 mm Allen Wrenches

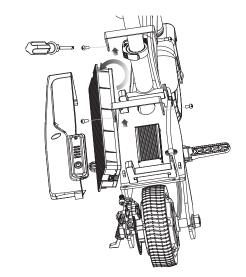

**1** Using two (2) 5 mm Allen wrenches, loosen the axle bolt. Remove wheel and install replacement wheel. (Note the sequence of the hardware)

### □ Battery Replacement

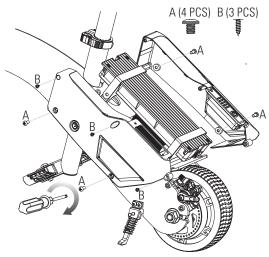

Required Tool: Phillips Screwdriver

**1** Using a Phillips screwdriver remove the seven (7) screws and remove the battery cover.

**2** Using a Phillips screwdriver remove the four (4) screws from the battery bracket, locate and disconnect the battery from the controller, remove the battery and replace with new battery. Reconnect the controller and replace the four (4) screws.

**3** Set battery cover back in place and secure with the seven (7) screws.

**Need Help?** Visit our website for replacement parts, product support, a list of authorized service centers in the US and customer service contact information at **www.razor.com**. Please have the product I.D. code (located on the white label of your product) available for better assistance. Additional Customer Service contact information is listed at the back of this manual.

## **REPAIR & MAINTENANCE**

#### □ Cleaning Your Scooter

Wipe with a damp cloth to remove dirt and dust. Do not use industrial cleaners or solvents as they may damage the surfaces. Do not use alcohol, alcohol-based or ammonia-based cleaners as they may damage or dissolve the plastic components or soften the decals or decal adhesive.

**AWARNING:** Risk of fire—no user serviceable parts.

#### □ Battery Care and Disposal

- Do not store in freezing or below freezing temperatures. To properly maintain your battery and ensure maximum battery life, carefully read the "Charging the Battery" section on page 7 of this owner's manual.
- Battery pack should not be disassembled, crushed, punctured, opened or otherwise mutilated.

**Disposal:** Your UB1 uses a lithium-ion battery pack which must be recycled or disposed of in an environmentally safe manner. Do not dispose of a battery pack in a fire. The battery pack may explode.

Do not dispose of a battery pack in your regular household trash. The incineration, land filling or mixing of batteries with household trash is prohibited by law in most areas. Return exhausted batteries to a federal or state approved lithium-ion battery recycler.

#### □ Charger

The charger supplied with the UB1 should be regularly examined for damage to the cord, plug, enclosure and other parts and in the event of such damage, the product must not be charged until it has been repaired or replaced.

Use ONLY with the recommended charger.

#### ■ Wheels and Bearings

Wheels and drive system are subject to normal wear and tear. It is the responsibility of the user to periodically inspect wheels for excess wear and replace hub motor components as required.

#### □ Replacement Parts

The most frequently requested replacement parts are available for purchase at some Razor retail partners. For the complete selection of replacement parts visit www.razor.com.

#### □ Repair Centers

For a list of authorized Razor repair centers:

- Check online at www.razor.com.
- Additional Customer Service contact information is listed on the back of this manual.

#### **Recycling Lithium-ion**

**Batteries:** Lithium-ion batteries are recyclable. You can help preserve our environment by returning your used rechargeable batteries to the collection and recycling location nearest you.

#### In the US and Canada only:

For more information regarding recycling of rechargeable batteries, call toll free 1-800-822-8837, or visit http://www.call2recycle.org

**Caution:** Do not handle damaged lithium-ion batteries.

A WARNING: Wheelies and other stunt-type riding reduces your ability to maneuver and control your scooter. Take the necessary precautions, such as wearing appropriate protective gear and practice in an area safe for stunt riding and free from obstructions.

# TROUBLESHOOTING GUIDE

\*Product(s) should be turned **OFF** and fully charged prior to doing any Troubleshooting. **NOTE:** All troubleshooting steps should be performed by an adult only.

Problem	Possible Cause	Solution		
Does not work out of the box	Undercharged battery	Check lights on charger: Plugged into wall - Green Plugged into wall & unit - Red (charging) Plugged into wall & unit - Green (charging complete) No lights/Blinking lights - Replace Charger		
No longer works	No lights on charger	Check power to wall outlet and/or try a different outlet.		
	Undercharged battery	Check lights on charger: Plugged into wall - Green Plugged into wall & unit - Red (charging) Plugged into wall & unit - Green (charging complete No lights/Blinking lights - Replace Charger		
	Battery will not hold a charge	Replace battery.		
Short run time/runs slow	Rider's weight	Do not exceed 220 lb (100 kg) maximum weight limit.		
	Riding conditions	Use only on flat, dry surfaces. Avoid inclines and areas with heavy debris.		
	Battery not fully charged	Charge product - refer to page 7 for charging information.		
	Old/damaged battery	Replace battery.		
		Charge battery at least once a month when not in use.		

For more troubleshooting tips, a list of available replacement parts or to locate an authorized Service Center in your area, visit our website at www.razor.com or call toll free +1 866-467-2967 to speak to a live Customer Service Representative.

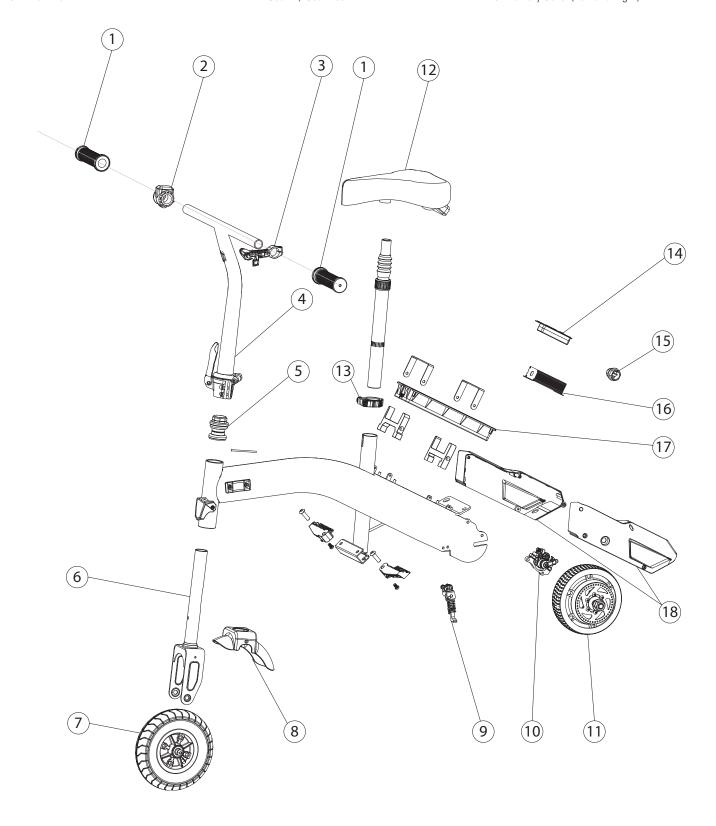

# **UB1 ELECTRIC SCOOTER PARTS**

# **FCC COMPLIANCE**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**WARNING:** Changes or modifications to this product not expressly approved by Razor USA LLC, could void the user's authority to operate the equipment.

#### WARRANTY

#### **Razor Limited Warranty**

The manufacturer warranties this product to be free of manufacturing defects for a period of 90 days from date of purchase. This Limited Warranty does not cover normal wear and tear, wheel, or any damage, failure or loss caused by improper assembly, maintenance, storage or use of the UB1.

This Limited Warranty will be void if the product is ever:

- used in a manner other than for recreation or transportation;
- · modified in any way;
- rented.

The manufacturer is not liable for incidental or consequential loss or damage due directly or indirectly to the use of this product.

Razor does not offer an extended warranty. If you have purchased an extended warranty, it must be honored by the store at which it was purchased.

For your records, save your original sales receipt with this manual and write the serial number below.

\_\_\_\_\_

NOTICE: INSURANCE
YOUR INSURANCE POLICIES MAY NOT PROVIDE COVERAGE FOR
ACCIDENTS INVOLVING THE USE OF THIS SCOOTER/ELECTRIC
RIDE-ON PRODUCT. TO DETERMINE IF COVERAGE IS PROVIDED,
YOU SHOULD CONTACT YOUR INSURANCE COMPANY OR AGENT.
