

Cummins **Onan**

MOBILE POWER FOR OIL, GAS AND MINING APPLICATIONS

Rugged Reliability and Maximum Uptime

OIL, GAS AND MINING APPLICATIONS

Proven Mobile Power Solutions

Oil, gas and mining sites present some of the toughest conditions for mobile power generation. Cummins Onan generators meet or exceed these tough demands, because we know reliability, uptime and peak performance are crucial for your success. More than 90 years of generator experience has made us the global leader in power generation, with the most extensive service network in the industry so we're there when and where you need us.

Our complete line of 5–25 kW Standard Diesel, Quiet Diesel and Hydraulic Series mobile power solutions deliver performance you can rely on, even in the most extreme conditions that are common to your oil, gas or mining applications. Reliable performance, quiet operation, reduced vibration and tolerance for a wide range of temperatures are just some of the reasons to choose Cummins Onan.

Warranty

We're so confident about our mobile power generation products that all Cummins Onan products are covered by extensive, completely transferable warranties.

Warranty coverage

Standard Diesel, Quiet Diesel	2 yrs/2000 hrs
Hydraulic	5 yr/1000 hrs*

*Warranty on the HG covers (limited) travel to the site for the first two years.

Cummins Onan generators have a number of self-protective shutdowns including high engine coolant temperature, high exhaust temperature, low oil pressure, over speed, over voltage, and many others. To find warranty information for your model, consult the product specification sheet, see your Cummins Onan Distributor/Dealer, or visit www.cumminsonan.com.

Dependable Performance and Expert Support

The Cummins Onan brand of generators continues our tradition of dependable performance, innovative technologies, and an ongoing commitment to provide you with the best power generation products available worldwide.

Plus, you can rest assured that after you purchase a Cummins Onan generator, our global customer support network will continue to provide you with high-quality parts, products, expert sales assistance and superior service. With thousands of service locations in hundreds of countries worldwide, you can count on the fast, expert service your applications demand, wherever they are.

Whether it's wireline trucks, coiled tube rigs, recovery/safety shelters/cooldown or any application where power is needed for lighting, climate control, computers and controls operation, Cummins Onan generators deliver:

- Global, local service network with expert, certified technicians to maximize uptime
- Rugged construction for continued operation in the most extreme conditions
- Smaller, lightweight size than other gensets providing the same power
- The lowest noise and vibration in its class
- Power nodes
- Reliability of the global leader in mobile power generation

Cummins Onan generators for oil, gas and mining applications all feature easy installation and maintenance, and operate with low noise and vibration.

Commercial Mobile Standard Diesel Series | 6–20 kW
