

■ Product Description

The MMA160GDsv is a compact inverter dual voltage welder that provides DC Stick and Lift TIG welding capability. It is a welding machine incorporating IGBT and features performance with high efficiency. The welder is ideal for farm work, construction, erection, fabrication, and DIY work. It is excellent for thin sheet metal and heavy gauge steel up to 1/4" thick. With 120-Volt/240-Volt capabilities, this welder can be operated almost anywhere a power outlet is found and can be used with small clean powered generators. Hot start and anti-stick help prevent the electrode from sticking to the work piece from the start of welding to the end.

Quick Specs

Applications

General fabricators
Contract welding services
Plant maintenance shops
Agriculture

Input Power 115 -230 V
Amperage Range 15-160 A

Processes

MMA/TIG

Net Weight Machine only: 12.0 lb. (5.5 kg)

Gross Weight Packing: 24.4 lb. (11.1 kg)

Rated Output

MMA: 60A at 115V, 30% duty cycle
160A at 230V, 30% duty cycle
TIG: 95A at 115V, 30% duty cycle
160A at 230V, 30% duty cycle

MMA160GDsv Packages

Comes complete with:

- Electrode holder: 5AWGx10ft. cable
10-25 quick connector
200A electrode holder
- Earth clamp: 5AWGx10ft. cable
10-25 quick connector
300A earth clamp
- Power adapter
