

## MICRO TREATMENTS

---

30 minutes \$49

### ***Breakout Buster***

Need some help with your fight against acne? ACU KLENZ is a sulfate and paraben-free cleanser with salicylic acid as the exfoliating, cleansing agent. ACU MASQUE works to absorb excess oil and dissolve dead skin cells, revising the function of your skin—not just the surface. ACU MOIST is a moisture occluding lotion ideally suited for anyone experiencing over drying of the skin caused by acne treatments or persons looking for a non-oily light skin moisture occluding crème.

### ***Enzyme Lift & Renew***

Our FOAMY LIFT mixed with EXODERMA PEEL provides superior exfoliation by removing dead skin cell material to reveal a fresh, glowing complexion. While, DMK's exclusive messenger enzymes work to fight free-radicals and nourish skin cells to ensure your skin is not only exfoliated but left feeling fresh and soft as well. Topped off with our NITE FIRMING CREME, designed to revise firmness and elasticity within the skin, recommended for those whose skin is showing the effects of ageing and environmental damage.

### ***Oil Control***

Excess oil your biggest problem? We start with our ACU-KLENZ to deep clean your pores and reduce sebum production; then, apply our CREME CITRIQUE to revise the skin's pH balance and regulate oil flow. Finishing off with ACTROL POWDER, specifically formulated to reduce excess sebaceous oils and fluids and removing the excessive shine associated with excess oil production. Containing Vitamin C crystals, the formulation avoids stripping the skin, the balance of this formulation aims to give the skin a natural look and feel without drying the skin.

### ***Maximum Moisture***

Constantly seeking more hydration for you dry skin? Our HYDRATING MASQUE is designed to nourish the skin by boosting hydration, working to re-establish barrier function, recommended for skin that exhibits dehydration, dryness, reactivity or inflammation. We lock in this increased moisture with our HYDROLOC, formulated as a water retaining facial crème for extremely dry, dehydrated skin, containing vitamins A and D, as well as rich fractionated botanical oils.

### ***Lighten & Brighten***

Concerned with pigmentation, sun-damaged and uneven skin tone. MELANOTECH DROPS is a potent botanical formulation designed to not only brighten the surface of the skin but to address the core problem by inhibiting the production of melanin. MELANOTECH CRÈME aids in cell respiration and oxygenation using powerful antioxidants designed to prevent premature ageing and pigmentation. MELANOTECH CRÈME is the crème of choice for darker skin tones who are genetically inclined to pigmentation.

### ***Men's Workout***

Men's skin is different; its thicker, more oily and tends to be more congested. The Men's Workout is a simple three step treatment that can be done on a regular basis. DEEP PORE PURE is a botanical, non- alkaline cleanser that is designed to cleanse the skin without drying. ACU MASQUE absorbs excess oil and dissolves dead skin while providing powerful antioxidants that purify and detoxify the skin. Seal it all in with CREME CITRIQUE, designed to brighten dull skin and regulate oil production.

### ***Micro Peel***

Skin feeling dull, want to attack fine lines and uneven skin tone? After a deep cleaning, we apply our MICRO PEEL, an exfoliant that gently removes dead skin cells and restores a fresh, smooth texture to the skin. We finish off with BIOGEN C, increasing dermal hydration and minimize free radical damage.

## DMK LIMITED

30 minutes \$59

Experience our luxurious Limited Line through the ultimate micro treatment. A cleanser, serum, water-emulsion spray, targeted cremes, and tinted-moisturizer composed of the most advanced ingredients. Designed to help you achieve healthy, youthful skin.

## ADVANCED TREATMENTS

105 minutes \$209

### ***Bhiaku***

#### **Aimed at targeting hyper-pigmentation from acne, sun exposure or aging**

Super Bright is applied first to break up excess melanin, and prevent future melanin over-production. Finished with DMK's signature Enzyme Masque Treatment.

### ***Pro Alpha***

#### **Designed to minimize the effects of aging**

A combination of Glycolic, Lactic, Malic and Citric acids that hydrates as well as improves the skin's firmness and bounce, while smoothing fine lines and wrinkles, are first applied, before DMK's signature Enzyme Masque Treatment.

### ***Prozyme***

#### **For the treatment and management of acne**

Prozyme is first applied, an enzyme wash designed to remove congested areas of the skin. DMK's signature Enzyme Masque Treatment is applied after to further pulls debris and toxins, leaving the skin hydrated and refreshed.

## BOOSTERS \$10

### ***Super Serum***

A combination of Vitamin C and Beta-Glucan is applied to the whole face to help maintain healthy skin and minimize the signs of aging.

### ***Eye Tone***

Applied to the eye area, designed to target dark circles, fine lines, redness and puffiness, to have you looking fresh, rested and youthful.

### ***Melanotech Drops***

Applied to the whole face or target areas of dark spots or hyper-pigmentation. Designed to break up existing areas of excess melanin production, and prevent future melanin over-production.

### ***Contraderm***

Applied to the whole face or target areas of irritation or itching. DMK's anti-trauma formula for skin is filled with anti-oxidants to help soothe and heal the skin.
