

## Impact Collapsible Bracket Setup

**Step 1: Locate the pairs of Bracket Accessory holes at the corners of your crate.**

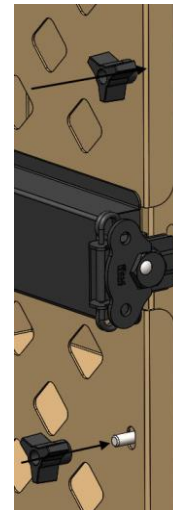

**Step 2: From the inside of your crate, insert the studs of your bracket (at the same time) into the holes located in Step 1.**

**Step 3: Thread a wingnut onto one of the threaded studs while holding the other stud to keep the bracket from pushing back into the crate.**

**Step 4: Thread another wingnut onto the other stud, and tighten both.**

**Step 5: Repeat the above steps for the remaining (3) sides.**

**CONGRATULATIONS! You have installed your IATA Collapsible Crate Bracket.**
