

Impact Door Guard Kit

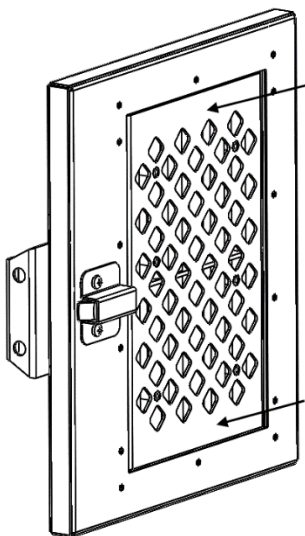

Included in Kit:

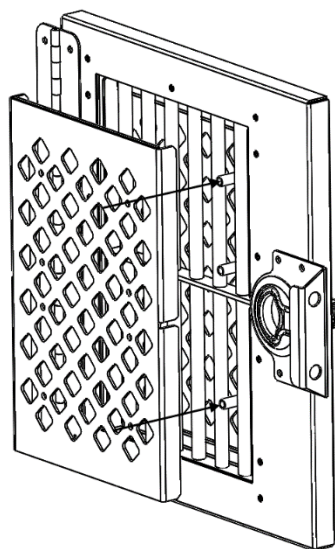

Door Guard

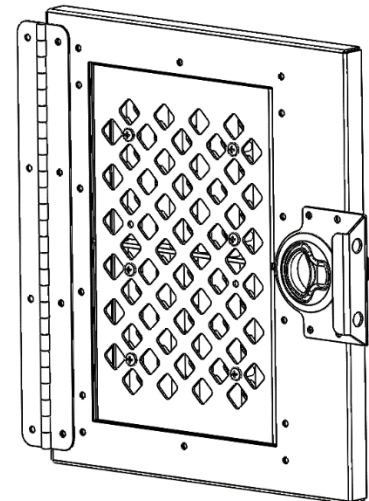

Screws
(6 Supplied)

1. Fit the panel with studs into the door opening (either side, your Guard is universal).

2. Fit the other panel on the opposite side of your door, sandwiching the door bars between your Guard (the fit may be snug).

3. Finish by installing the supplied screws through the Door Guard into the studs on the opposite panel.

CONGRATULATIONS! You have installed your Impact Door Guard!
