KNEE SLEEVE

“This knee support is the most comfortable, well thought out knee sleeve I’ve ever worn. Easy to get on and off, comfortable, light weight, no binding or rolling, and it stays where I put it! At first, I thought it was expensive for an ‘Ace bandage’, but now I see the value, and I’m happy with my investment.” - Jim Strand

“Over the past 6 years or so I have tried nearly everything to deal with arthritis in my knees. Bone on bone and doctor says knee replacement in my future. Pills, prescription drugs, a 600 dollar laser gizmo that I nothing more than a kid toy. 3 drops of miracle product in water, on and on. After 30 minutes sitting I have to nearly really learn to walk. I bought this knee sleeves. INCREDIBLE. I have nearly complete relief and no limping. My hip doesn’t hurt from walking goofy. Before you try any other product and waste more money on the “miracle cures” I urge you to give this a try. It sounds a bit over the top, but for about 80 dollars, these have changed my life.” - David Miller

“I had meniscus repair surgery on my knee. After 3 months, I still have knee pain on days that I was more active. When I wear the knee sleeve, it eases and prevents the pain. I am very impressed with the results and recommend Knee Sleeves.” - Terri (January 21st, 2017)

“Can’t believe the relief of pain in my knees that I have received with wearing these sleeves! I wear them 24 hrs a day and when I get out of bed in the a.m., I have no limping or pain, I am actually back to my daily walking with no discomfort!” - David Kline Sr

“A friend recommended the Knee Sleeve to me as I prepared for a 10-day tour/trip which included a lot of walking. With a recent injury to my knee and ankle and arthritis in my knee, I was afraid the pain would impact my walking abilities on my trip, so I ordered both the ankle and knee sleeve. I can’t believe how much it helped!! I walked for hours and sometimes on uneven terrain and felt great! I never would have been able to walk all that distance and that long of a duration each day without the sleeves! I don’t really know how it works, but it really is amazing!! I continue to wear them now even after my trip. They offer great relief. I highly recommend these sleeves! Especially if you have daily arthritis joint pain!” Staci

“I am 65 yrs. of age... knee problems have plagued me for over 20 yrs. I have ordered and worn knee braces of one type or another for that period of time, with stays, without stays...I am a hard sell when it comes to fads and promises of “immediate relief”, being skeptical....I ordered one knee brace and was pleasantly surprised to see the brace as it came from the box. Not a typical big, ugly piece of work, but a nice looking sock style brace. It is warm, comfortable, because of the measurements taken BEFORE I ordered it.....and offers relief within a half hour. I am satisfied with the brace.” - John Chandler

“This is the very best brace I’ve ever used, and I have a drawer full! I have had a bad knee since birth and cannot have a replacement for at least another three years. Last month, I had to breakdown and purchase a cane. Then I saw this and thought it’s worth a try. I am so glad I did. This does not bunch up behind the knee and when I got out of bed the next day, I had no pain. This is a blessing. Thank you!!” - Mary Naehring

“I had meniscus repair surgery on my knee. After 3 months, I still have knee pain on days that I was more active. When I wear the knee sleeve, it eases and prevents the pain. I am very impressed with the results and recommend Knee Sleeves.” - Terri

ANKLE SLEEVE

“After my surgery 2 years ago, the surgeon recommended a neoprene brace. Ouch! Not well tolerated. I found the Incrediwear Ankle Sleeve and have been amazed at how much it helps, even now, 2 years later. Thank You” – Annick Rappole

“I had a ruptured Achilles surgery two years ago that never healed correctly. I am a full time fitness coach and being limited I. Range of motion and activity was killing me. When I put this brace on I felt the relief overnight. I am truly amazed by this product.” – Carl Hultgren

“I have been suffering from foot pain since I broke it a year and a half ago. After wearing the Ankle Sleeve from Incrediwear, the swelling and pain in my foot went down in the first 24 hours. I wear the sleeve all the time now. I no longer need to take two 500mg Tylenol three times a day. The swelling and pain are gone. I cannot thank you enough!” – Alice Pearl

“Thank you so much!!! Having Plantar Fasciitis, this Ankle Sleeve has given me the Best Relief that I have ever experienced. I’m amazed with this product and I’ve told all my family and friends. Thank you for the relief.” – LuAnn Loftis

ELBOW SLEEVE

“I’ve looked for an elbow sleeve that doesn’t bind or pinch. Since I’ve begun using the Incrediwear Elbow Sleeve I’ve found relief from the constant pain that afflicts my elbows. They allow support while my elbows heal and I find immediate relief when I put them on.” – Dennis Dean

“My elbow function is significantly better. I have been a practicing orthopedic physical therapist for over 30 years and do not usually endorse products such as this because the majority of them have not done what they have claimed to do. I can say without a doubt that the Incrediwear elbow and knee sleeve has significantly relieved my pain and has made my quality of life so much better. So much so, that I now recommend the Incrediwear line to my patient’s.” – Craig B Nagata PT, OCS, MTC

“I just wanted to take this time to tell you how happy I am with my Incrediwear Elbow Sleeve purchase. For weeks I had been suffering with constant elbow pain. After just wearing the sleeve one night, much of the pain had disappeared, and after the 3rd night of wearing the sleeve the pain was completely gone. I was so impressed with the results that I decided to purchase an Incrediwear body sleeve the day I strained my back. I was about to cancel my tennis date for the following day, but I decided to wait and see how I felt the next morning after wearing the body sleeve. Well, needless to say, I was well enough the next morning to play tennis again, to the amazement of all my tennis partners. Thank you again for introducing me to this incredible product. It certainly lives up to it’s name.” – Raymond Szczybek – PGA Golf Professional

“Lateral Epicondylitis, if you have it you know that it hurts. Therapy helped but I kept re-injuring my elbow. I didn’t want to get surgery so thought I’d give this a try. Two weeks of wearing it while I slept at night and I noticed a difference. It’s been a couple of months and there has been no pain. Even my skin around the area looks better. I surf and exercise 5-6 days a week. My elbow feels great.” – Joy

WRIST SLEEVE

“My husband has been suffering from bad carpal tunnel that I just figured what the heck and bought one for him to try and he loves it. He even sleeps with it on and is able to sleep though the night. I would recommend this product to everyone, thank you.” - Damien

“I developed carpal tunnel during my pregnancy and it bothered me most of the day and kept me up most nights with pain and numbness in my hands. Exercises from the physio and a splint provided limited relief (if any). Since wearing the product 24/7 over the past few weeks (and continuing with exercises and the splint) I have noticed a marked reduction in symptoms during the day and at night which has allowed me to sleep. I would recommend this product.” - Nic

“I love these Wrist Sleeves!!! Highly recommend you buy them. If you are a gamer, use the computer for any length of time and have sore wrists, here is your answer! I have had surgery on both wrists for carpal tunnel over 20 years ago. I wear these anytime I feel fatigue in my wrists. They were suggested to me by a local wellness center owner. Best advice ever. I will buy these again if I ever lose them.” - Diana

“I had an operation on my hand thirteen years ago which causes occasional swelling; I normally wear a copper bracelet but sometimes it doesn't help. I've worn this a couple of times now for a few hours and it seems to keep the swelling down nicely. My hand is also warmer (poor circulation equals cold hands constantly) but I think that needs a bit more testing before I can say it increases circulation. Fits well and is very comfortable. Material is not scratchy at all, very soft and warm.” - Pol

“Ordered the sleeve for my carpal tunnel. I have some nerve damage and don't expect the sleeve to heal me. It does help enormously though as the pain is gone when I wear it. It is extremely comfortable because it does not keep my wrist rigid as other braces I have tried in the past.”

CALF SLEEVES

“This past season, I have been introduced to Incrediwear, in particular their calf sleeves. The athletes have really responded to the comfort and quality of the product. I would firmly say that we have seen a decrease in fatigue related to calf injuries, due in a part to the great product that Incrediwear has created. I would recommend them to any medical professional or athlete looking to help increase the recovery process.” - Kevin Christen (Head Athletic Trainer, New York City FC)

“I love the calf sleeve and it did help decrease some pain on my shins. I would recommend them to any medical professional or athlete looking to help increase the recovery process.” - Norman

“When I wear the Incrediwear Calf Sleeve, I don't even know it's there. But, I do know it's working because I see it in my results. I have more energy, I'm less fatigued, and I don't have pain from shin splints anymore!” - Manteo Mitchell, Olympic Medalist

BACK BRACE

“Had a spinal implant operation for L4/L5 spinal fix. Using your back brace for support during recovery. Excellent results. Would not be near as mobile and energetic without it. I highly recommend this product.” - Brian Calder.

BODY SLEEVE

“I have been wearing the body sleeve for approximately a month now. I am 5'3” and weigh 130 lbs. and so ordered a S/M. I seem to fit just right. It washes up well (I did not put it in the dryer). It is soft and comfortable. I had a lesion on my lower spine that caused waist down damage. Lesion was healed by steroids. I have been left with damage. One “after affect” is inflammation of my spine and tail bone. The body sleeve does not cover the entire spine but what it does cover has helped reduce the inflammation. I appreciate the reduction of pain. I find I cannot wear it after eating. I have a neuropathy in my stomach nerve and the pressure is uncomfortable. The relief I receive during the day helps me keep going. Also, I have been wearing it while I exercise and it is comfortable enough to complete the stretching I require.” – Katherine Michael

ARM SLEEVE

“As a PGA Member and Golf Academy owner and lead instructor I need to be able to stay healthy and ‘ache free’. I met Incrediwear at the Merchandise Show in Orlando and talked with Tom. Great insight and passion and I was hooked. Bought an elbow sleeve there and actually gave that to one of my students already. Purchased a full arm sleeve and calf sleeve. So far I have had nothing but positive results. Wear them either all day or all night while sleeping. If I had 3 thumbs I’d put them up. Hoping we could discuss an affiliate program as I see a lot of sales potential for you and myself just after a couple of weeks of “word of mouth” networking. Thank you!” – Scott Trethewey

HIP BRACE

“Years and years and years of SI joint pain. Thousands spent on chiropractors, orthopedic doctors, joint injections and physical therapy. I was recently at my worst, 90% of my waking hours in significant pain, willing to do anything for relief. I started wearing it whenever I did physical work. Almost immediate results. It feels great. I’ve recently loaded and unloaded 2 cords of wood, split wood, cut a large fallen fir tree into rounds, PAIN FREE and I’m a 62 year old woman. It is like a miracle. I was scheduled for another joint injection next week and canceled today. My mental attitude is so much better. My overall pain level is a 2 when I’m not wearing it. I still can’t believe it.” – Lindsay Scott

“I love my new hip brace! It has helped relieve a great deal of discomfort. It doesn’t show under clothing, and I feel a sense of security with it.” – Linda Stover

LEG SLEEVE

“After 2 years of an occasional indescribable, uncomfortable stiffness in my full leg, and 6 months of the same feeling but constant and affecting my daily life, I can finally sleep and concentrate on things other than my leg. My doctor was perplexed by my situation and could only recommend stretching and a compression sock for the swelling. My dad came home with this a week ago and it genuinely changed my life. I’ve been able to sleep with little to no discomfort! Yesterday was the first time I didn’t have it on during the day or while I slept and I woke up this morning tossing and turning because of the pain. So I got up and put this on and in 30 seconds I was out like a light and slept like a rock. I’ll probably end up getting one for my ankle because it feels like it’s missing out on the party! I wear this while I sleep but I occasionally wear it to work where I do a lot of sitting! It helps SO MUCH! And I can hardly feel that I have it on! I feel the compression, but it’s comforting rather than annoying! Definitely worth trying if your pain has been labeled a lost cause!” – Karissa Lund

“I got this leg sleeve when I was recovering from my ACL surgery and it’s been great for me. I didn’t want a traditional compression sleeve because I didn’t want to risk blood clots, so this one was perfect. It’s been almost 2 years since my surgery and I still wear my sleeve after a tough workout and when I’m traveling. Still in great shape. Thanks for helping with my recovery!” – Aaron

CIRCULATION GLOVES

“I just love them. I’m now ordering 2 more pairs. Much more comfortable than other ones I have tried and easier to remove. My arthritis is very painful in both hands in the thumb and forefingers, very sore. I am an artist and thought I would have to give up because of the pain, but you have saved me and my art work. I can now work with my plants with gloves on under my gardening gloves. Please do not stop making this wonderful pair of gloves!!!! Forever a customer...THANK YOU” – Ann Chitty

“What comforting relief for my aching hands. I have some arthritis in my hands and I also fell and broke my left hand in November, which activated the arthritis. These gloves make my hand feel so much better.” – Sara Funk

“These gloves are working great for me! I have arthritis in my wrists and thumbs. I wear them at night and after two weeks have noticed that my hands are not stiff and sore in the morning. I am able to do things I thought I could no longer do. Great product!” – Emily Eichinger

CIRCULATION SHORTS

“I use these shorts for working out and basketball. I deal with some lower back pain and nerve pain through my hamstring. These shorts help lower the pain and recovery is much quicker.” – Tim
