

Press Release
POOLTRADESHOW, Booth 4023
May 6-9, 2017

Off on a Tangent is excited to participate in our inaugural trade show with POOLTRADESHOW at the UBM Fashion NY Women's apparel and accessories market.

Off on a Tangent transforms iconic architecture and travel landmarks into unique and stunning jewelry collections. The items in each collection are intended to serve not only as eye-catching pieces but as catalysts for engaging conversations about the architectural design that inspires them.

Founded in the Spring of 2016 by architect Alissa Werres, Off on a Tangent combines her love of architecture, travel, and digital fabrication into jewelry making. Each piece is crafted with woods, acrylics, and metals sourced in the USA, then digitally fabricated and hand assembled by Alissa in Washington, D.C.

Some of our featured collections at this show include pieces inspired by:

The Louvre Museum, The Eiffel Tower, The Big Ben Clock Tower, The Guggenheim Museum NYC, and The National Museum of African American History and Culture, The National Gallery of Art, The Pantheon.
