

How to use the stain remover for TPE sexdolls

Some manufacturers in our catalog offer with their sexdolls a small supply of TPE stain remover. This product will remove stains on your TPE doll, mostly caused by clothing/fabric discoloration. The application of the stain remover is simple but require patience. For the most stubborn and deep stains several applications will be required, at intervals of a few hours.

Here you can find the procedure of application:

CLEANING PROCESS AND RESULT

1. Application of the stain remover on the stain

2. 4 hours later

3. 24 hours later, the stain has gone

1. Stain on a pair of jeans caused by color bleeding

2. First application of the remover

3. 12 hours later

4. 24 hours after the second application

5. 36 hours after the third application

6. 48 hours after the fourth application

7. 60 hours after the fifth application (end)

To apply the remover, use a cotton stick
