

Left Hand Rim Lock

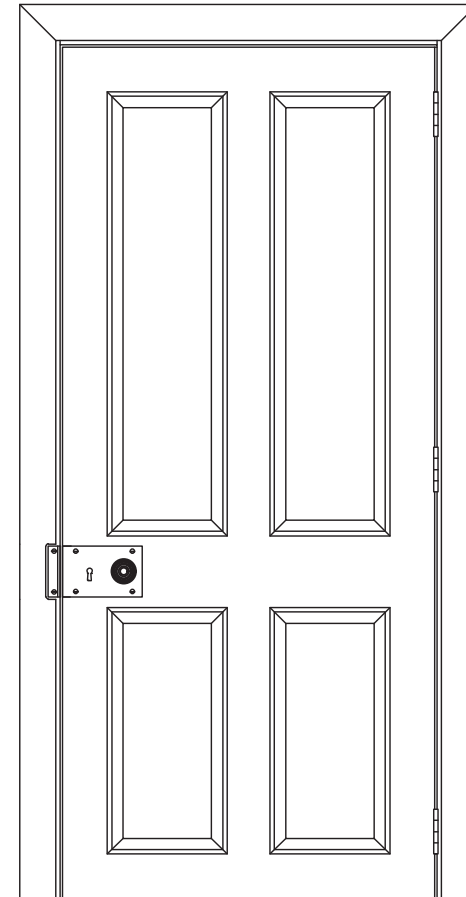

Please use this as a guide to the correct rim lock for your door.

The simplest way to choose the correct rim lock is to stand in front of the door on the side that opens towards you

If the door is hinged on the left and opens towards you, then you will need to choose a left hand rim lock.

If the door is hinged on the right and opens towards you, then you will need to choose a right hand rim lock.

Right Hand Rim Lock
