

1.5"

THE BLACK OUT TACTICAL BELT

Made from our ultra-rugged 17 oz extreme leather, this is one tough belt. This belt is one of our thickest single ply solid leather belts we make. The single needle accent stitch gives it a more finished look which results in a belt that looks right at home on khakis or jeans.

This belt works great for CCW use and also makes a great work belt due to its extra tough steer-hide leather.

The black powder-coated buckle is rugged but lightweight. This results in a little less bulk when the belt is on.

Holding it all together is the tactical look black oxide Chicago screws. Double slotted on each side makes for easy buckle swaps. These won't break or come undone as snaps can.
