THE EVERYDAY BELT

Looking for a belt that won't crack and break at the holes? Need a belt that won't stretch and sag when carrying your tool pouch? Well, here you go. The Everyday Work Belt from Hanks Belts will take whatever you can throw at it or hang on it. It is made from a solid 13 oz steer hide. This leather work belt won't sag, stretch excessively, or break at the holes like leather department store belts. The solid full-grain leather is sliced right from the hide and handcrafted resulting in a belt that will probably be handed down to your kids. You won't find a better belt construction. The Everyday Work Belt is accented with our super tough black powder-coated buckle that is held on with two black oxide tactical screws so you can easily swap the buckle out. So stop wasting your money on belts that only last six months, don't hold your pants up, or sag and stretch. This may be the last belt you ever need.
