

1.5"

THE KYDEX REINFORCED CCW BELT

If you need a Kydex belt that holds just about anything you put on it, the Hanks Kydex Reinforced CCW belt will make your day.

This reinforced CCW gun belt has a Kydex core that simply won't allow any sag. It's backed with rugged nylon to keep overall thickness down and is made in our most popular 1 1/2" width.

We start with the same full grain USA extra heavy vegetable tanned leather we use in our best selling Gunner series belts. Then we add a Kydex stiffener and back it with super rugged high tensile strength nylon. By backing it with nylon we keep the overall thickness down yet still give you the support only a reinforced belt can provide.

The nylon backing has the added benefit of low friction which makes the belt slide on and off effortlessly.

The heavy duty roller buckle makes it easy to cinch the belt down as tightly as you like without binding or excessively marking the belt. The Chicago screw construction facilitates easy buckle exchange and longevity, unlike snaps which can wear out or break with time.

When you need a gun belt with ultimate support for your firearm, the Hanks Kydex Reinforced CCW belt will get the job done.
