

1.5"

THE PREMIER BELT

NOTE: This is a very thick belt. Buy 2 sizes larger for normal use and 3 sizes larger for carry use due to the extra thickness. If you would like a belt like this but not as thick, check out our Canyon belt.

A leather belt that is in a class of its own. When you are ready to step up to a belt that stands apart from the rest take Hanks 1.5" wide Premier Double Leather English Bridle Belt into consideration. No other belt comes close to the quality of this belt, in this class, at this price.

We start with the best genuine USA-made vegetable-tanned bridle leather on the market. Vegetable-tanned leather is more expensive than traditional chemically tanned leather primarily because of the skill required to tan the hides. It's a 200-year-old process handed down through generations of skilled craftsmen. This same skill, though, results in hides of much higher quality.

Once we had the leather we wanted we didn't skimp on the hardware. Rugged solid stainless steel roller buckles give a refined, classy, but masculine look. The roller buckle makes fastening and unfastening your belt a breeze.

Want to change the buckle to one of your choosing? No problem. We use rugged, yet handsome, Chicago screws to hold the belt together so you can easily swap buckles. The screwed-together construction ensures your belt stays fastened, unlike snaps.

Once we had everything laid out we decided to make this belt the most dependable, durable belt on the market. So we doubled up and sewed two pieces of this quality leather together making the original Hanks Double English Leather Bridle Belt complete. The result is a leather gun belt that looks good enough to wear with a sports coat and slacks and rugged enough to function as the premier CCW belt.
