# THE SWEAT & WATERPROOF DOUBLE LAYER SYNTHETIC BELT

The perfect belt for those of you that are getting your belts wet constantly! Finally, a belt built to last a lifetime no matter how wet or how much you sweat.

This is the super-rugged double layer and is a beast of a belt built to carry anything you may hang on your belt. We also make a standard single-layer version if you don't need this extra heavy-duty construction.

Leather belts don't handle getting soaked that well, so the only other solution is synthetics. The problem with those is they just don't last...until now!

This belt carries our 100 year warranty, and the secret is the ultra-rugged nylon core that won't break or stretch even for the most demanding use. The rugged outer coating wraps it all up, and the end result is a belt you can tow a car with and is waterproof to boot. We use our proven heavy-duty roller buckle, and it is held on with Chicago screws, so you can swap it out if you like.

This belt here is the double-layer version for work or carry use. Not carrying items on your belt? If so, you'll probably only need the single-layer version of this belt.

Finally, the perfect belt for those that need a rugged belt that will stand up to water!
