# THE SWEAT & WATERPROOF SINGLE LAYER SYNTHETIC BELT

The perfect belt for those of you that are getting your belts wet constantly! Finally, a belt built to last a lifetime no matter how wet or how much you sweat.

Leather belts don't handle getting soaked that well so the only other solution is synthetics. The problem with those is they just don't last...until now!

This is our standard single-layer version. We also make an extra-rugged double layer if you need a sturdy work or carry belt. This belt carries our 100 year warranty and the secret is the ultra-rugged nylon core that won't break or stretch, even for the most demanding use. The rugged outer coating wraps it all up and the end result is a belt you can tow a car with and is waterproof to boot.

We use our proven heavy-duty roller buckle and it is held on with Chicago screws so you can swap it out if you like.

Finally the perfect belt for those that need a rugged belt that will stand up to water!
