Corvette C8 Carbon Enhancements

All ALM supplied carbon products are **VISIBLE CARBON FIBRE** manufactured by one of USA's leading manufacturers, using **100%** epoxy prepreg carbon, not wet laid or carbon over fibre glass, cured using the latest in autoclave technology which provides the strongest and most appealing finish possible. Truly Formula 1 quality, light weight, and superior strength.

All products are designed and manufactured to OEM specification and perfect fit for your C8.

All Items listed and shown as in stock are CURRENTLY in stock (at time of publishing this price list) at our Campbellfield warehouse, Victoria. (Talk to us about any other products and take advantage of our indent offers)

We are a business that has been around over 40 years, importing, manufacturing, and distributing Motorsport related products so you can be confident dealing with us and not being caught up with hidden traps.

There is NO HIDING by us the fact that all these Carbon Fibre components are manufactured by AGMotorsport in the USA.

AGM was selected by us after a high level of research into their manufacturing processes and company ethics to ensure that we can supply you with the absolute best products, proven and tested and that are all suitable and OEM fit for the fantastic new C8.

Why buy from us when you can go direct to the manufacturer and buy online.....

Well, this is what we do, it's our business, we know all the traps and hidden costs that will bite you when importing yourself.

We have shipping deals with reputable companies that look after our freight, we are registered with Australian Customs and renowned for our honest trading and customer service.

All Items are in stock (at time of publishing this price list) no waiting sometime months to get what you've ordered and already paid for.

You can come and see the items before you buy if you want.

We take all the hard work and guess work out for you and we will actually be cheaper than you trying to do it yourself, when you take everything into consideration.
