PASSENGER SEATS

# UH-1B SEAT COVERS

Our Bell Medium Passenger Seat covers are made of a Military Spec Nylon made to meet military standards. The material is very durable, breathable and stretches easily over the seat frame. We also reinforced the area where the nylon meets the seat frame so the seat covers lasts longer than standard OEM seat replacements.

All materials meet FAR 29.853(a), comes with a Certification of Conformance and Burn Test Reports.

# SEATBELT REWEBBING

Aerotex interiors is currently one of the few transport canada approved companies certified to do cargo-nets, shoulder harness and seat belt repairs by webbing replacement with our state-of-the-art equipment. We have been re-webbing seat belts and shoulder harnesses since 2001 and have perfected the quality and strength of our service.

As we are aware of the tight deadlines and last minute AOG rushes in the aviation industry. We offer a really quick turnaround time at a great price. We are very competitive with our pricing and if you are getting better pricing somewhere else, please let us know.

We specialize in inspecting-repairing-rewebbing-certifying the following:

- Cargo nets
- Crew & passenger seatbelt assemblies
- Shoulder harnesses
- Inertia reels
- Restraint systems

Signs that your belts need to be certified:

- Webbing is frayed or torn
- Hardware broken or inoperational
- Stitches broken or loose
- TSO tags are missing or illegible
- Belts are 10 years or older.
