INTRODUCTION

About Us

Aerotex Interiors Inc. is the Premier Aircraft Upholstery Company in Western Canada. We are located in Calgary, Alberta, Canada, and have specialized in the Refurbishing and Reupholster of Aircraft Interiors and Aircraft Covers since 1995. Our products and service line has since expanded into aircraft covers, helicopter interiors, wallblankets, seat belt repairs, cargo nets and custom interiors to fit all your aircraft needs. Please take your time and browse through our catalogue to view what we have to offer. We are certified to Repair Aircraft Restraint Systems and Crew Restraint Systems since September 2001 (See page 148-149 for more information).

Our Goal

Our goal is to provide you with quality aircraft products for our customer's needs. We are very proud of our company, so we are continually striving to improve and evolve our products and services.

Our History

The Founder of Aerotex Interiors Inc., Suki Chanthyvong, brings over 30 years of knowledge and experience to his many distinguished clients. He started the company in 1994, and since then he has come to be exceptionally well known and respected in the aircraft industry.

His son Carson Chanthyvong, current President, has continued the family tradition while constantly striving to bring in fresh ideas for product development, and to expand the company in new directions.

AEROSPATALE - HELICOPTER COVERS

Bubble / Window Covers

Made of our custom layered laminated material. The outside layer is made of a Nylon Codura which is water repellent, breathable and reflective. The inside layer is a soft inner lining. All engine and window covers are sewn on with a green (right side) and red (left side) indicator patches, for ease of installation.

Available in **Grey**

Main / Trail Rotor Blade Covers

Our blade covers are made of two different types of material:

Medium Weight Nylon - Recommended for Dry Cold Winters Areas

Heavy Weight Tarp - Recommended for Moist Rainy Areas

Available in Nylon **Red** and Tarp **Black** or **Silver**

Blade Tie-Downs / Intake Covers

All our blade tie-downs and intake covers are made of a Heavy-duty Polyester Scrim, all sewn on and secured with heavy duty nylon webbing or bungee hooks.

Available in **Red**

Insulated Covers

Being in Canada and having to experience very cold winter conditions, we know what it takes to keep your aircraft warm.

Through our vigorous R&D and years of experience we have come up with the best insulated covers in the industry.

Available in **Black** or **Red**

Engine / Exhaust Plugs

Made of a Polyester acrylic fabric, this material has a rough grip for a secure tight fit.

Water Repellent and Stain Resistant.

Available in **Red**

Heat Shields

Our heat shields are there to protect your interior from the hot sun.

With these installed it will drastically lower the temperature of the helicopter which helps keep your upholstery from fading.

Available in **Silver. Reflective**

Winter Cover Kits

Our Winter Cover Kits include:

- Insulated Head & Engine Cover
- Main & Tail Rotor Covers
- Horizontal Stabilizer Covers
- Pitot Cover.

Comes inside a nylon bag for easy storage and is labeled with Part Numbers and Date for your records.

Available in Nylon **Red** and Tarp **Black** or **Silver**

BELL MEDIUM – HELICOPTER COVERS

Bubble / Window Covers

Made of our custom layered laminated material. The outside layer is made of a Nylon Codura which is water repellent, breathable and reflective. The inside layer is a soft inner lining. All engine and window covers are sewn on with a green (right side) and red (left side) indicator patches, for ease of installation.

Available in **Grey**

Main / Trail Rotor Blade Covers

Our blade covers are made of two different types of material:

Medium Weight Nylon - Recommended for Dry Cold Winters Areas

Heavy Weight Tarp - Recommended for Moist Rainy Areas

Available in Nylon **Red** and **Tarp Black** or **Silver**

Blade Tie-Downs / Intake Covers

All our blade tie-downs and intake covers are made of a Heavy-duty Polyester Scrim, all sewn on and secured with heavy duty nylon webbing or bungee hooks.

Available in **Red**

Insulated Covers

Being in Canada and having to experience very cold winter conditions, we know what it takes to keep your aircraft warm.

Through our vigorous R&D and years of experience we have come up with the best insulated covers in the industry.

Available in **Black** or **Red**

Engine / Exhaust Plugs

Made of a Polyester acrylic fabric, this material has a rough grip for a secure tight fit.

Water Repellent and Stain Resistant.

Available in **Red**

Heat Shields

Our heat shields are there to protect your interior from the hot sun.

With these installed it will drastically lower the temperature of the helicopter which helps keep your upholstery from fading.

Available in **Silver. Reflective**

Winter Cover Kits

Our Winter Cover Kits include:

- Insulated Head & Engine Cover
- Main & Tail Rotor Covers
- Horizontal Stabilizer Covers
- Pitot Cover.

Comes inside a nylon bag for easy storage and is labeled with Part Numbers and Date for your records.

Available in Nylon **Red** and **Tarp Black** or **Silver**

Aerotex interiors is currently one of the few transport canada approved companies certified to do cargo-nets, shoulder harness and seat belt repairs by webbing replacement with our state-of-the-art equipment. We have been re-webbing seat belts and shoulder harnesses since 2001 and have perfected the quality and strength of our service.

As we are aware of the tight deadlines and last minute AOG rushes in the aviation industry. We offer a really quick turnaround time at a great price. We are very competitive with our pricing and if you are getting better pricing somewhere else, please let us know.

We specialize in inspecting-repairing-rewebbing-certifying the following:

- Cargo nets
- Crew & passenger seatbelt assemblies -Shoulder harnesses
- Inertia reels
- Restraint systems

Signs that your belts need to be certified:

- Webbing is frayed or torn
- Hardware broken or inoperational
- Stitches broken or loose
- TSO tags are missing or illegible
- Belts are 10 years or older.
