

FOUR-IN-HAND KNOT

**TIMELESS &
POWERFUL**

The Four-in-Hand is our signature knot. It's simple, asymmetrical and perfect for all collars- in our opinion.

Try it for yourself but do it with a dimple.

Step 1: Bring the Long End over the Short End.

Step 2: Pass the Long End behind the Short End.

Step 3: Bring the Long End across the front.

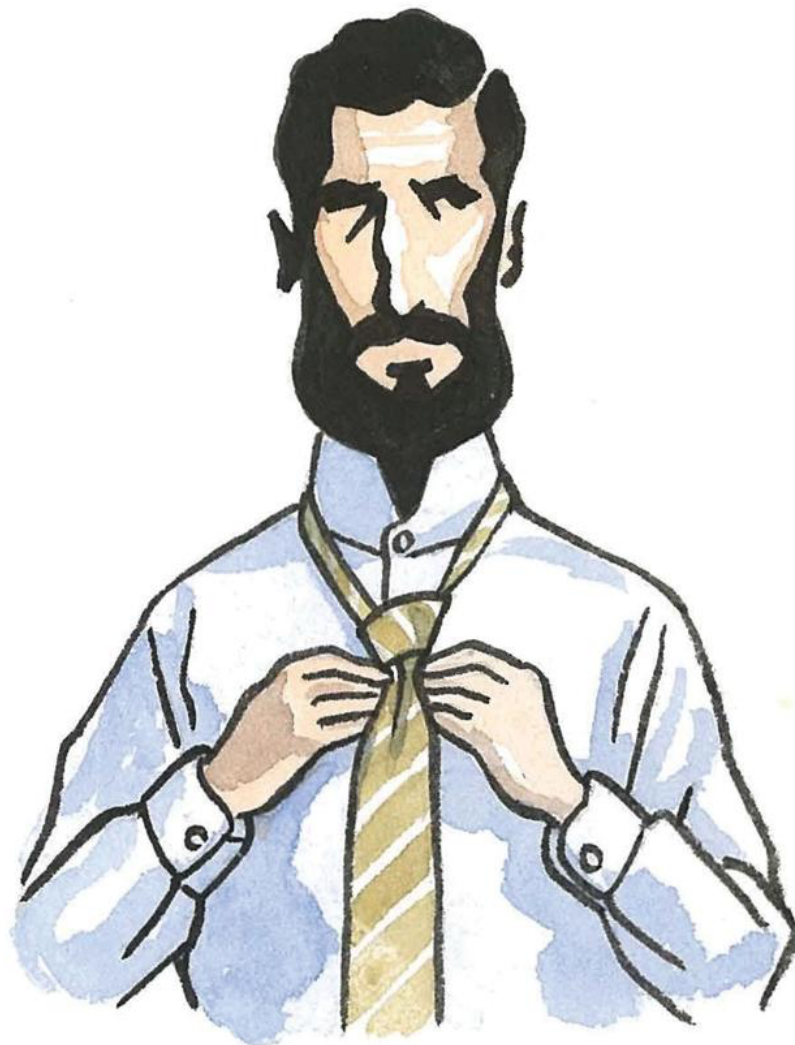

Step 4: Bring the Long End up through the Centre Loop.

Step 5: Now pull the Long End through the loop.

Step 6: Pull and begin to adjust your tie.

Step 7: To create a dimple, pinch the Long End closest to the knot while tightening the knot.

Step 8: Fin. Looking Good.
