COMMON PROBLEMS AND SOLUTIONS

1. Mobile phone can't search the Bluetooth earphone

Solutions:

1. To confirm if the Bluetooth earphone is turned on. (Whether the indicator light is on or Red and Blue light flash alternatively)
2. If the Bluetooth earphone is turned on but still cannot be searched, please to restart your mobile phone and the Bluetooth earphone

Notes:

A. When the Bluetooth headset is in pairing mode, to connect in 2 minutes, or the Earphone will turn off automatically after 2 minutes.

B. Hold the MFB for about 3 seconds when charging, the red and blue lights flashing three times, it can restore factory Settings.

2. After connecting the Bluetooth earphone with your mobile phone, there is always disconnection or noise.

Solutions:

1. The Bluetooth earphone is power low, please to charge the earphone soon.
2. There is block between the Bluetooth earphone and your mobile phone or it beyond the signal distance. A/so, please do not cover the Bluetooth earphone by your hand. To keep signal stable, please keep your phone and the earphone in the same direction.

3. The Bluetooth has been connected, but you can't listen to music

Solutions:

1. Mono Bluetooth headset cannot be used to enjoy music except you match it with Nokia mobile phone.
2. Check your Bluetooth setting, to adjust the sound path to hands-free mode.
3. Some cell phones also need to set 2 items for the player, to start the player Bluetooth and choose the just connected Bluetooth device, then click ok
4. Some mobile phones are without complete stereo Bluetooth module and Bluetooth function to listen to music. Please connect your Bluetooth earphone with other mobile phones to check whether the Bluetooth earphone is OK or not!

4. Learn how to use Bluetooth earphone to listen music or chat on computer

Answer:

If your computer is equipped with Bluetooth, just to open the Bluetooth function and search the opening Bluetooth earphone, Or else you need a Bluetooth adapter. By a Bluetooth software (NT), the adapter can connect the Bluetooth earphone with computer. Computers with XP system can identify any Bluetooth adapter automatically and it does not need driver, while the adapter software built-in XP can only transfer files, it cannot transmit audio, so you must install the NT software in CD to transfer audio.

5. When Using, the Max distance between Bluetooth earphone and or adapter mobile phone**Answer:**

The available distance between Bluetooth earphone and mobile phone or adapter is 10M. Generally speaking, the result is the best when there is block between them. When it reaches the distance limit, there is light noise when calling.

6. What's the Bluetooth pairing password?**Answer:**

The Bluetooth pairing password is 0000, most phones support enter password automatically, only small part phones need to enter password 0000 manually.

7. The red Light is not on when charging

Possible reason: It is long time not to use the earphone

Solutions: It needs to charge about 30 minutes, then the red light might be bright

Note: Overcharge or keep Bluetooth earphone in a closed car etc. such similar environments, it will reduce the capacity and life of the battery.
