Are you ready for a more difficult challenge? Let's try typing a paragraph with as few mistakes as possible. Begin with your fingers on the home row. If done correctly, you should feel a bump on the keys under both of your pointer fingers. Remember to keep your eyes on the paper, not on your keyboard or computer screen. Please take your time; we will focus on typing faster in our next workbook. How are you doing so far? Have you made any mistakes? If you make an error, just keep going; don't fix it. You will make fewer mistakes as you become a more confident typer. Like many other things in your life, the only way to become better is to practice. 148 92 8 © Sylladot, LLC. 2024

My dad and I are building a treehouse in our backyard. This project will require a lot of work; there is so much to do. First, we need to decide what the design will be. What will it look like? How big will it be? Next, all of the supplies must be purchased from the home improvement store. The only items on our shopping list are nails and lumber. We already own all of the tools needed to build it. Lastly, I want to decorate the interior. I'm planning on adding a few beanbag chairs, a small folding table, and a ruq. It needs to be comfortable here. This is where I will be spending much of my time during the summer.

Laura began gardening a few weeks ago; she thought it would make a great hobby. Her goal is to grow many of her own vegetables to use for cooking. She chose to plant tomatoes, carrots, peppers, cucumbers, onions, and potatoes. It is much more difficult than what she had expected. They need to be planted in rich soil, watered often, and protected from wild animals. If you were Laura, how would you choose to protect your vegetables? She tried using a scarecrow at first. It kept the birds away, but it didn't help with larger animals such as rabbits and deer. Adding a wooden fence to her vegetable qarden solved all her problems.

Would you like to help me make a sandcastle? I brought shovels, buckets, and a few other tools that will surely help us build it. Let's start with the main tower first; that is usually the easiest part. Fill up the bucket with wet sand and quickly flip it over while placing it on the ground. If done correctly, you will be left with a tower shape when you remove the bucket. After the tower is built, we can work on constructing both the wall and moat that surround the castle. I do not have an easy method to build these parts; they will have to be built by hand. We only have an hour to complete it before the tide comes in to wash it all away.

Our parents always tell us not to throw the football inside of the house. After they left, we didn't obey this rule. My siblings and I accidentally broke a vase while playing catch. What should we do? How can we fix it? We will surely be in trouble if Mom and Dad ever find out. All of us thought that if we glued it back together, they would never notice. Like a jiqsaw puzzle, we began fixing it piece by piece. We had to hurry; our parents wouldn't be gone for long. Our plan would have worked if they hadn't brought home a dozen flowers from the store. They knew exactly what had happened once the water poured into the vase leaked all over the floor. 152 96 8 © Sylladot, LLC. 2024

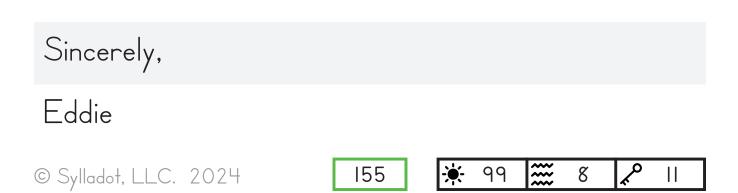

Our family likes to go camping a few times every year; it is the thing I look forward to most. My dad has taught me how to pitch a tent, build a campfire, and fish. All of those activities are fun, but my favorite part of every camping trip happens when the sun goes down. I walk around the campsite every evening searching for the perfect stick. This stick is used to roast marshmallows over our campfire. They burn very easily; however, don't leave it above the flame for too long. The marshmallow and a piece of chocolate is then sandwiched between two graham crackers. This dessert is called a s'more. Have you ever ate one before? You're in for a treat. 153 97 8 © Sylladot, LLC. 2024

Do you want to have a picnic in the park? The weather outside is perfect; I can't think of a better day to have one. We can pack sandwiches, potato salad, coleslaw, watermelon, and a few slices of pie for dessert. Do these lunch options sound tasty to you? Would you like to bring something else instead? I think it would also be a good idea to take a blanket, sunscreen, and bug spray. I'll start preparing the food; you can gather all of the other items. Please don't dilly dally. We need to leave within the next hour, if you want to arrive at the park before it closes. Go upstairs and tell your sister the plan.

Dear Vincent,

It's been a while since we last talked. How have you been? I know that you are usually very busy, but would you be interested in going to the zoo with me this weekend? I heard that they added a brand new penguin exhibit; they say that it is the largest in the country. Their website states you can feed and pet them for only ten dollars. I don't know about you, but that sounds like so much fun.

Many think that I'm made from paper, but that statement is just not true. I'm actually made from cloth that is much more durable for you.

My size, shape, and color never change,

but my face and value definitely do.

You can store me in your pocket,

but a bank will keep me safe for you.

Do you know what I am?

Do you need another clue?

I go by many different names.

For a buck, I can tell you a few.

If a genie granted you three wishes, what do you think you would choose? Popular choices are fame, fortune, and health. Be more creative; you don't need to reuse.

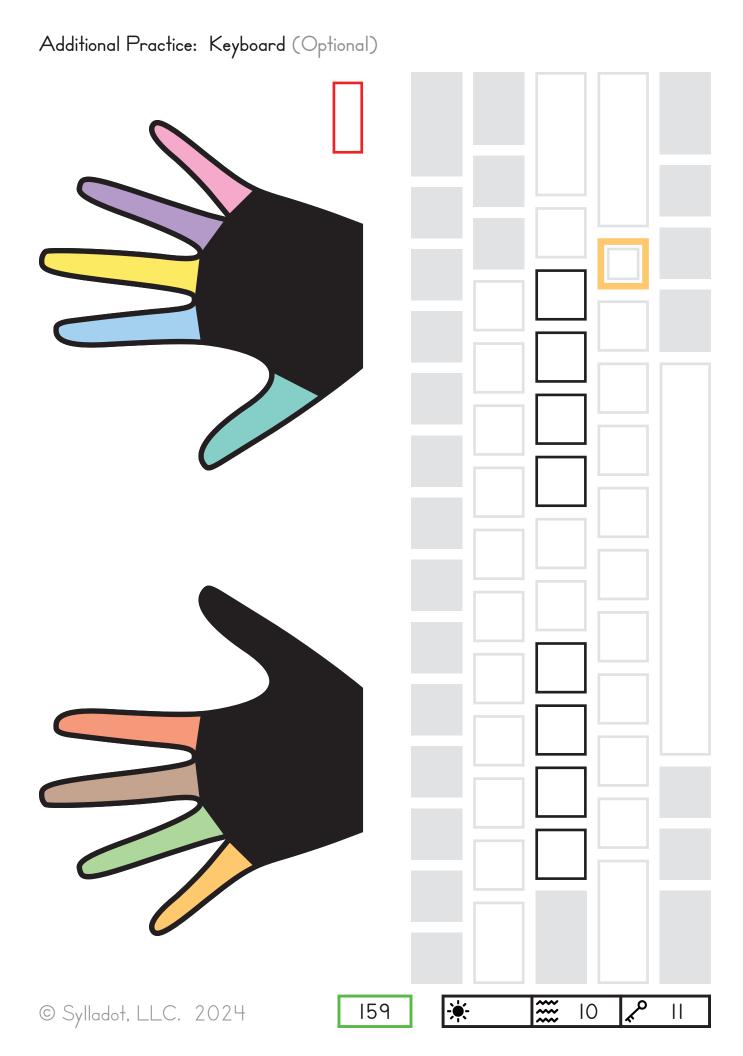

What if you could be a hero from a comic book? What if the moon was made out of cheese? With a snap of his fingers, he could turn the world around you to whatever you please.

You cannot wish for more wishes; you only get three. You must have good intentions; you cannot be cruel. Any wish you can think of will be granted as long as you follow these two simple rules. © Sylladot, LLC. 2024 157 101 202 8 2 11
