1: What this product is and what it is used for

This product is a traditional herbal medicinal product containing Black Cohosh root. Each film-coated tablet of this product contains 6.5mg of extract (as dry extract) from Black Cohosh rhizome and root (*Cimicifuga racemosa* (L.) Nutt.) (4.5-8.5:1) (equivalent to 29.25-55.25mg of Black Cohosh). Extraction solvent: Ethanol 60% v/v.

MenoHerb Black Cohosh Menopause Relief is a traditional herbal medicinal product used for the relief of symptoms of the menopause, such as hot flushes, night sweats, and temporary changes in mood (such as nervous irritability and restlessness), based on traditional use only.

As there is evidence that Black Cohosh may have hormone-like actions, it should only be used by women of child-bearing potential if contraception is used.

2: Before you take this product

DO NOT TAKE this product if you:

- have or have ever had **liver or kidney problems** (e.g. hepatitis, jaundice or cirrhosis)
- have or have ever had treatment for **breast cancer** or any other **hormone-dependent tumour**
- are **of childbearing potential and do not use contraception**
- are **lactose-intolerant** (react badly to lactose or milk)
- are **pregnant** or **breast-feeding**
- are **allergic to any of the ingredients** (see section 6)
- are **under 18 years of age**
- are **taking a medicine containing estrogen unless your doctor advises it is safe to do so.**

Tell your doctor before taking this product if you:

- have a persistent **history of menstrual disorders**
- are currently taking a **medicine containing oestrogen**

After taking this product

You must speak to a qualified healthcare practitioner if your symptoms worsen, if they do not improve after 12 weeks, or if you notice any re-appearance or changes in menstrual bleeding.

3: How to take this product

Adults

For women experiencing menopausal symptoms, take 1 tablet daily

Tablets should be taken at the same time of day if possible (morning or evening). Swallow the tablet whole with some water or other liquid. Do not chew the tablets. You must not take Black Cohosh for more than 6 months without medical advice. Do not take more than the label/leaflet tells you to.

If you take too much of this product (overdose)

If you take more than the recommended dose, speak to a doctor, pharmacist or qualified healthcare practitioner and take this leaflet with you.

If you forget to take this product

Continue to take your usual dose at the usual time, it does not matter if you have missed a dose.

2

If you have any questions, or are unsure about anything, please ask your doctor, pharmacist or qualified healthcare practitioner.

4: Possible side-effects

Like all medicines, this product can have side-effects. These are listed below.

- | | |
|---|---|
| ● digestive upsets such as indigestion or diarrhoea | If these persist for more than a few days, or become troublesome, stop taking this product. These uncommon side-effects are often only temporary. |
| ● facial swelling, swelling in legs and arms, weight gain | |
| ● allergic skin reactions such as nettle rash, itching of the skin | Stop taking this product immediately if you experience any allergic skin reaction. |

Other side-effects

Black Cohosh may rarely cause liver problems. If you become unwell (yellowing eyes/skin, nausea, vomiting, dark urine, abdominal pain, unusual tiredness) stop taking immediately and seek medical advice.

If you notice any other side-effect not mentioned above, or if any side-effect becomes serious, tell your doctor or pharmacist.

Reporting of side-effects

If you get any side-effects, talk to your doctor, pharmacist or nurse. This includes any possible side-effects not mentioned in this leaflet. You can also report side-effects directly via the Yellow Card Scheme at www.mhra.gov.uk/yellowcard or search for MHRA Yellow Card in the Google Play or Apple App Store. By reporting side-effects you can help provide more information on the safety of this medicine.

5: How to store this product

Do not use your tablets after the expiry date.

Return any out-of-date tablets to your pharmacist who will dispose of them for you.

The expiry date is printed on the box and the blister pack.

Do not store the tablets in a place where the temperature goes above 30°C.

Store in the original packaging

Keep the tablets out of the sight and reach of children.

Keep your tablets in the blister pack until it is time to take them.
