Flea Dust by DERMAGIC

Avoid using toxic insecticides on your dog! DERMAGIC's new Flea Dust offers safe flea protection for your dog and your home! Flea Dust is made from food grade diatomaceous earth and safely kills fleas on your pet as well as on bedding, carpets and furniture. Flea Dust should ideally be used in conjunction with the organic Flea Shampoo Bar which kills fleas and lice and helps prevent reinfestation. It's good for the skin and coat too! Flea Dust comes in a handy sprinkle top container and is safe for dogs and cats. Visit www.dermagic.com to purchase or find a retailer.
