

UNIVERSAL LOCK FOR NEEDLE HOLDERS

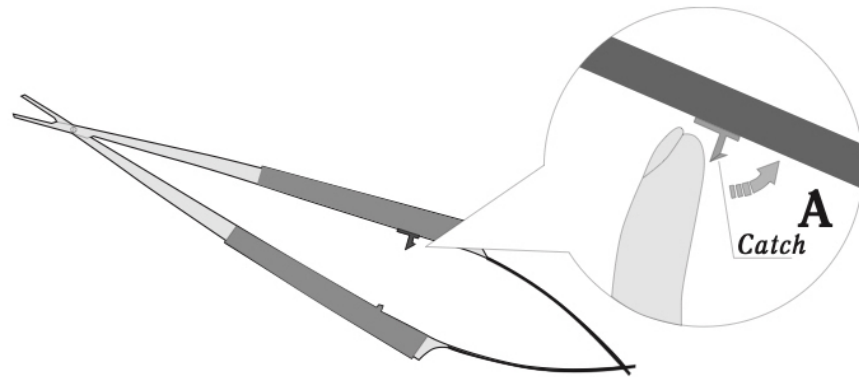

NEW

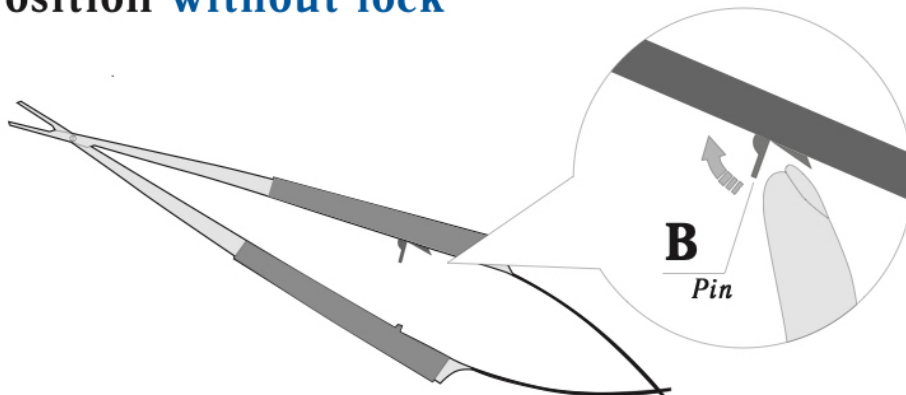

*U[®] Universal needle holder can be used as a needle holder both **with** the lock and **without** it. The removable lock allows a surgeon the option to use or not to use the lock during operation.*

Figure 1
Position **with lock**

 **A** - to move the catch to **without lock** position

Figure 2
Position **without lock**

 **B** - to move the pin to **with lock** position
