KONNO BASKETBALL

Don't let anything hold you back from taking control of the game. We designed the uncompromising Shotcaller jersey to be lightweight, durable, modern, and vibrant. Our use of Waffle Knit fabric ensures all of the above are fulfilled, while its moisture-wicking properties keep athletes cool and dry. Our fabric, while perforated for increased breathability, is arranged in a way that allows for remarkable clarity and intense design options during sublimation. The Shotcaller supports performance from schools and organizations all the way up to elite clubs. It is available in a Unisex cut in Adult and Youth sizes, along with adult sizes of a Women's cut; collar options are between a V-Neck or Bridged V-Necks.

Keeping with the emerging preferences of the modern female athlete, we have created a rendition of our basketball jersey to feature a Racerback design. The Downtown jersey features the sleek and increasingly-popular Racerback cut, creating a sleeve opening less cumbersome than a traditional basketball jersey. As with the Shotcaller, the Downtown jersey is made from our Waffle Knit fabric to stay lightweight, durable, and modern, and allowing for a wide range of vibrant designs. It is available in Adult and Youth sizes and with the choice of V, or Bridged-V Necks.
