20 20 ARMOR   HEADGEAR OPERATIONAL GUIDE

TURN ON/OFF

Press and hold the Power button for 3 seconds to Power On/Off. The headgear will auto shut off after 5 mins of inactivity if not paired with a 2020 Armor vest.

Once turned on, the headgear will flash its battery status on the 3 LED lights.

Red = Low Charge
Yellow = Medium charge
Green = Full charge

CHARGE BATTERY

To charge the 2020 Armor headgear, plug in the supplied USB C charger in the charging port located at the top of the headgear.

To fully charge from an empty battery takes 1-2 hours. A full battery lasts 6-8 hours of usage.
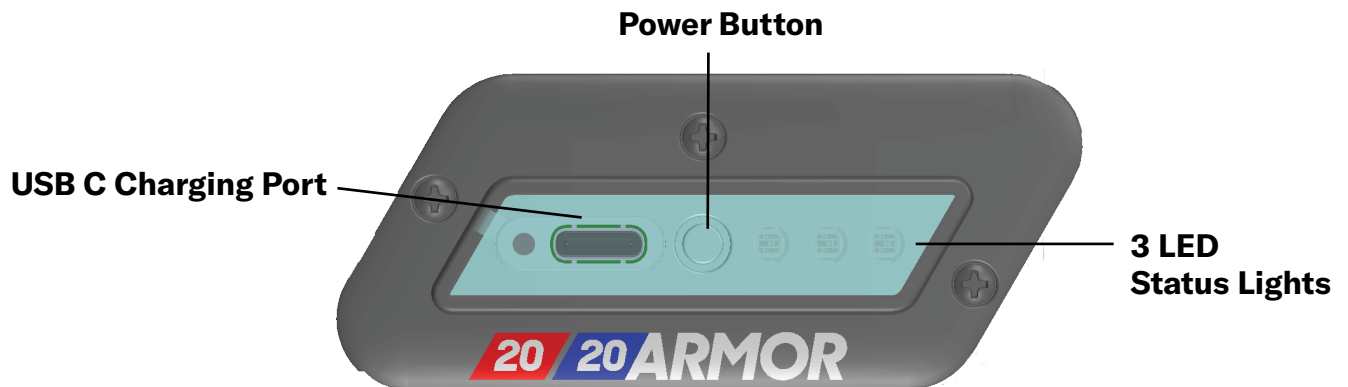

After the headgear is turned on and its battery status lights have shown, the center LED will flash red, indicating it is not connected to a vest.

CONNECT TO VEST

After the headgear is turned on and its battery status lights have shown, the center LED will flash red, indicating it is waiting to connect to a vest.
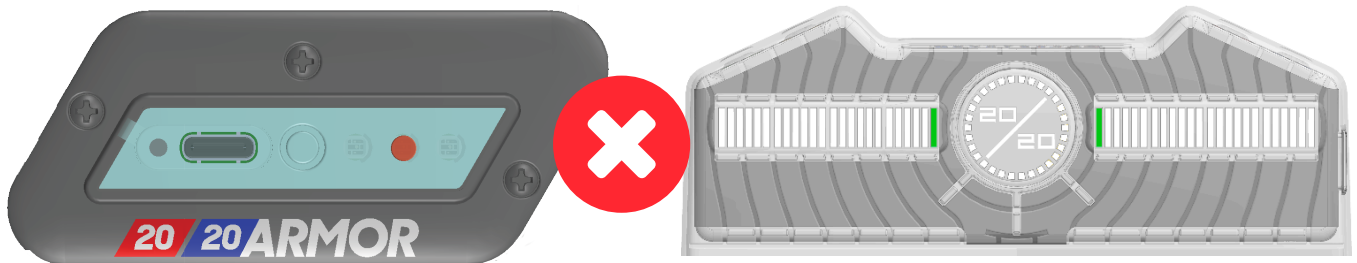

To connect the headgear to a 2020 Armor vest, first, please turn on the 2020 Armor vest. The 2020 Armor headgear requires a 2020 Armor vest to operate.

Tap the headgear against the 2020 Armor vest to pair them together.

Power Button

USB C Charging Port

3 LED Status Lights

20 20 ARMOR

When you turn on the 2020 Armor vest, you will see two green lights on the vest blinking. When you tap the vest, you will see a series of white lights flash on the vest indicating that it is looking for a headgear to pair, and the two green lights will turn blue indicating it recognized the tap attempt.

HEADGEAR AND VEST NOT PAIRED

The above left image shows the headgear center light is red, indicating it is not connected to a 2020 Armor vest. The vest display on the right shows the two centre lights are green, and not connected to a headgear.

HEADGEAR AND VEST PAIRED TOGETHER

The above left image shows the headgear center light is green, indicating it is connected to a 2020 Armor vest. The vest display on the right shows the two outer lights are green, indicating it is connected to a 2020 Armor headgear.

To connect the headgear to the vest, please tap the headgear against the vest. If the pairing did not work, please try tapping the headgear harder against the vest.
