

*an evolution in camera carrying design*

Thank you for your purchase of a **Cotton Carrier Camera System**! We know you'll enjoy the comfort and security of the system, and the ability to move about freely without your camera swinging from a neck strap and causing irritating neck and shoulder pain. Follow these quick and easy instructions to enjoy the superior advantages of your **Cotton Carrier** immediately!

1. Fit the Camera Vest by adjusting the buckles on the front and the Velcro straps on the back, ensuring your Cotton Carrier sits as high up on your chest as shown. **MAKE SURE THE CHEST STRAP IS SNUG!**

3. Ensure you align the arrow on the Camera Hub in the direction of the lens. This ensures that when placing your camera into the Cotton Carrier, you are doing so at a 45 degree angle.

5. Attach the Side Holster to the Camera Vest using the Velcro wraps for extra security. Alternatively, you can attach the Side Holster to your belt or the waist strap of your camera backpack.

2. Attach the Camera Hub by threading it into the 1/4" tripod mount of your camera with the Allen Key. **MAKE SURE IT IS REALLY TIGHT!** Check frequently!

4. Hold your camera above the Lexan™ receptacle of the Camera Vest as shown and lower it into the slot. Allow the camera to hang vertically, and you will find it now securely "locked" into place.

6. Use the built-in Lens Stabilization Strap and Camera Tethers for total security. Attach the Split Ring to your camera's neck strap slot, then clip the Camera Tether from it to the D-Ring on the Camera Vest.

To see a detailed video of how to best put on and fit your Cotton Carrier, please visit our website and go to the Video page, and review the video on "How to fit and use your Cotton Carrier".

We would love to hear your feedback, and see photos of you in action with your Cotton Carrier! Feel free to email to us at [feedback@cottoncarrier.com](mailto:feedback@cottoncarrier.com). Want to share your comments with the world? Send us a a photo of you with your Cotton Carrier and an interesting story, and we'll do our best to publish it on our **Blog** page. *Thank you for joining the Cotton Carrier evolution!*

## Using the Angled Camera Hub (Pro-Pac)

*\* this section is for purchasers of the Cotton Carrier using full-bodied Pro Series and Battery Gripped cameras only!*

The **Angled Camera Hub** is specifically designed for full bodied, professional series cameras AS WELL AS cameras using battery/portrait grips.

Screw the Camera Hub on **FIRMLY** to the base of your camera with the arrow pointed in the direction of your lens using the included Allen Key.

When wearing the camera on your Cotton Carrier, it is essential to have the lens contact your body to avoid stress on the Cotton Carrier and your camera.

While using your Cotton Carrier in active situations, such as mountain biking, skiing, hiking, etc., it is important to wear the Lens Stabilization Strap to provide further camera stability. Also, **WEAR YOUR CAMERA TETHERS** for total camera security.

## Cotton Carry-Lite Instructions

① Cotton Belt

② Side Holster

③ Shoulder Strap

④ Camera Tether

⑤ Regular Camera Hub (for regular body cameras)

⑥ Angled Camera Hub (for pro-series & battery gripped cameras)

- 1 Attach the Angled Camera Hub ⑥ if you have a battery-gripped or pro series camera, OR the Regular Camera Hub ⑤ to the bottom of your camera. The arrow on both the Angled Hub and the Regular Hub should point in the direction of the camera lens. Ensure it is **REALLY** tight, and check the hub frequently for any loosening.
- 2 Attach the Side Holster ② to the Cotton Belt ① by opening the Velcro and wrapping it around the patch area of the belt, and double locking it with the shorter Velcro strip.
- 3 Adjust the size of the Cotton Belt ① and click it together around your waist with the buckle.
- 4 Adjust the length of the Shoulder Strap ③ to go over either of your shoulders as preferred.
- 5 Attach the included round Split Ring on your camera's neck strap slot, then attach the Camera Tether ④ to the steel D-Ring on the Shoulder Strap ③ and you are all set for comfortable and secure camera carrying!

For information on using your Cotton Carrier with a Tripod, as well as the care and cleaning of your Cotton Carrier, visit our website at [www.cottoncarrier.com](http://www.cottoncarrier.com), and go to the INSTRUCTIONS link and the FAQ Page.
