

Paying it Forward

*When you get, give.
When you learn, teach
Maya Angelou*

The empowered person creates a better life for themselves, lifts others up, and works to protect our future.

Empowerment happens when  we:

- * Are educated and enlightened;
- * Enjoy a circle of support that allow us to be all that we can be;
- * Possess the understanding that working together, we can make the world a better place.

With these deeply held beliefs, we wish to support the empowerment of others. We make donations to domestic violence protection & prevention, education and empowerment communities throughout New Mexico. As we continue to grow, so will our support.

Gives a new meaning to “flower power”, doesn’t it!

Thank you,
Karin
